### EXPLANATORY STATEMENT

The Department of Justice is primarily the law office for the Government. It furnishes legal counsel in Federal cases, construes the laws relative to the activities of other departments, conducts all suits in the Supreme Court and other Federal courts in which the United States has an interest, represents the Government in legal matters generally, and renders legal advice and opinions by request of the President and the heads of the executive departments. The Department also supervises and directs the activities of the United States district attorneys and marshals in the several judicial districts and its three major bureaus: The Federal Bureau of Investigation, which investigates violations of Federal laws; the Immigration and Naturalization Service, which administers the laws pertaining to immigration and naturalization; and the Federal Prison System, which has custody of Federal prisoners and operates the Federal penal institutions.

#### LEGAL ACTIVITIES AND GENERAL ADMINISTRATION

Grouped under this heading are 27 appropriations which provide funds for those divisions handling legal matters or litigation to which the United States Government is a party, and for the general administration of the Department. Practically the entire increase for 1944 is in the Administrative and Lands divisions and the offices of the United States attorneys. These additional funds are required because of the tremendous increase in work resulting from the war.

#### FEDERAL BUREAU OF INVESTIGATION

In addition to the investigative work normally conducted by this Bureau, there was delegated to it in 1939

the important responsibility for investigating activities relative to espionage, sabotage, selective service, and other war matters. The regular activities of this Bureau have remained rather constant and the increase in funds is required to handle the work resulting from expanded war activities.

#### IMMIGRATION AND NATURALIZATION SERVICE

Wartime restrictions requiring inspection of persons leaving the country and the registration of all aliens have more than offset the reduction in work due to the sharp decline in immigration since the start of the war. Naturalization work which began to expand about 4 years ago has been further increased by more rigid regulations. Since the declaration of war further responsibilities have been placed upon the Service by the temporary detention of large numbers of alien enemies, the surveillance of alien enemies released on parole, and the furnishing to war agencies of information concerning aliens in defense plants. Of the increase in the estimate, 55 percent is for the temporary detention of alien enemies and the remaining 45 percent to finance additional work loads throughout the Service resulting from wartime responsibilities.

#### FEDERAL PRISON SYSTEM

Estimates for the fiscal year 1944 show a decrease, in part because of transfer to other agencies of two Federal prisons. A further decrease in the estimated number of prisoners to be maintained is largely offset by increased subsistence and supply costs.

None of the money appropriated by this title shall be used to pay any witness or bailiff more than one per diem for any one day's service even though he serves in more than one of such capacities on the same day.

None of the funds appropriated by this title may be used to pay the compensation of any person hereafter employed as an attorney unless such person shall be duly licensed and authorized to practice as an attorney under the laws of a State, Territory, or the District of Columbia.

[The appropriations in this title for "Traveling Expenses, Department of Justice", and "Salaries and Expenses of Marshals, and so forth, Department of Justice", shall be available, respectively, for traveling expenses of the district attorney and of the marshal of the United States Court for China and of employees of their offices and, under such regulations as the Attorney General may prescribe, of their families and effects in going to and returning from their posts, including travel expenses of said officers and employees and their families for travel performed from their posts to their homes in the United States and return to their posts while on authorized leave of absence; for the expenses of preparation and transportation of remains of such officers and employees who may die abroad or in transit while in the discharge of their official duties to their former homes in the United States or to a place not more distant for interment; and for the traveling expenses of said officers and employees and their dependents while en route to or from places of temporary refuge in time of war, political disturbance, earthquake, epidemic, or similar emergency, and for per diem in lieu of subsistence of such officers, employees, and their dependents while in a refugee status; and the appropriations "Salaries and Expenses of District Attorneys, and so forth, Department of Justice", and "Salaries and Expenses of Marshals, and so forth, Department of Justice", shall be available, respectively, to the district attorney and marshal of the United States Court for China and to employees in their offices for allowances for living quarters, including heat, fuel, and light as authorized by the Act of June 26, 1930 (5 U. S. C. 118a), not to exceed \$1,700 for any one person, in no event to exceed the amount actually and reasonably expended by the recipient of such allowances for living quarters, including heat, fuel, and light; lawbooks and other books of reference; ice and drinking water for office purposes; and expenses of maintaining in China American convicts and persons declared insane by the Court; rent of quarters for prisoners; ice and drinking water for prison purposes; wages of prison keepers; and the expense of keeping, feeding, and transporting prisoners and persons declared insane by the Court.]

Sixty per centum of the expenditures for the offices of the United States District Attorney and the United States Marshal for the District of Columbia from all appropriations in this title shall be reimbursed to the United States from any funds in the Treasury of the United States to the credit of the District of Columbia.

[That of the sums heretofore appropriated in title II of this Act \$300,000 is made immediately available for the purposes of investigating and prosecuting Japanese and those of Japanese descent in the States of California, Oregon, Washington, and the Territories of Hawaii and Alaska.]

[Of the total amount available under this title for traveling expenses, with the exception of the amount for traveling expenses of the Federal Bureau of Investigation, the Attorney General is authorized and directed on or before August 1, 1942, to cover into the surplus fund of the Treasury the sum of \$253,350, which shall be in addition to reductions in amounts available for traveling expenses resulting from decreases in the appropriations made by this title below the Budget estimates] (56 Stat. 488-489).

### EXPLANATORY STATEMENT

Since its creation in 1913, the Department of Labor has concerned itself with activities which foster, promote, and develop the welfare of wage earners of the United States, improve their working conditions, and advance their opportunities for profitable employment. Bureaus and divisions have been established in the Department of Labor for the performance of details of various activities in the Department.

The Division of Labor Standards provides service to labor, industry, and to States in improving and developing the administration of labor laws and gives leadership for improving the economic conditions of workers. From time to time the Division sponsors regional conferences for groups from neighboring States to permit labor law administrators, workers, employers, and interested public agencies to exchange views and to come to agreements upon labor standards and administrative methods. Particular service is rendered in connection with the drafting of labor laws upon request of State officials and others. The Division also concerns itself with the problems of accident and health, giving technical advisory service designed to assist in the standardization of desirable accident prevention and occupational health techniques.

The Conciliation Service operates for the Secretary of Labor, acting as mediator or conciliator where necessary in the interest of preserving industrial peace. Workers and employers alike are encouraged to utilize the facilities of the Service to settle their grievances around the conference table. This Service for the fiscal year 1942 handled 8,825 assignments which concerned approximately 5,000,000 workers, and it is estimated that in 1944 it will assume a work load of approximately 14,500 assignments.

The Bureau of Labor Statistics was established by Congress over 50 years ago and charged with the duty of gathering and publishing information regarding labor in the United States. It has been a fact-finding agency which collects and publishes information of earnings, conditions of work, opportunities for employment, and living conditions of workers. With the outbreak of the present war, the policy of the Bureau was changed to

some extent, and during the past fiscal year, it has devoted much of its resources to furnishing the basic statistical information required by war agencies in the major fields of wartime policy, such as wages, prices, and production.

Under the provisions of the Fair Labor Standards Act of 1938, the Wage and Hour Division was established to enforce the wage-and-hour provisions of the act. Its duties are to see that employers engaged in interstate commerce, or producing goods for interstate commerce, conform to the wage-and-hour standards of the act. The activity of this Division relates to production in approximately 450,000 plants. This Division also administers the Walsh-Healey Act, which requires Government-supply contractors to provide for a 40-hour basic week, not less than prevailing wage, and observance of the law relating to child labor and safety and health.

The Children's Bureau has general responsibility for investigating all matters pertaining to the welfare of children and child life, and makes recommendations which ameliorate conditions inimical to the welfare of mothers and children. It administers the provisions of the Fair Labor Standards Act which prohibit child labor under certain conditions and under certain ages, and also administers grants to States for maternal and child health services, crippled children, and child welfare services under the Social Security Act. The Children's Bureau is the only Federal agency which concerns itself with childhood as a whole. Its administration covers approximately 41,000,000 infants and young persons under 18 years of age.

The Women's Bureau formulates standards and policies to promote the welfare of wage-earning women, improve their working conditions, increase their efficiency, and advance their opportunity for profitable employment. It is estimated that during the fiscal year 1944 approximately 17,000,000 women will be gainfully employed in industry.

The appropriation recommended for 1944 shows a decrease of \$97,080 from actual appropriations made in 1943. This decrease is accounted for by a modification of certain functions of the Department.

### EXPLANATORY STATEMENT

The Post Office Department is a service organization. In addition to postal activities the Department performs many services for other Government agencies, such as the sale of internal-revenue stamps, automobile tax stamps and Treasury bonds. The Post Office Department is reimbursed in full for some services and in part for other services. Receipts from these sources do not affect postal revenues. No reimbursement is received for work performed in connection with conducting examinations and advising the public on civil service matters.

The several appropriation items under Post Office Department, "Salaries and expenses," provide for the general overhead activities of the Department at Washington. An increase of 12 percent is required over 1943 appropriations for the reorganization and expansion of procedures needed to obtain complete and accurate information relative to the postal business. The cost of all overhead expenses at the seat of government is only one-half of 1 percent of the total appropriation for the entire Postal Service.

#### POSTAL REVENUE

Postal revenue is derived from the sale of postage by stamps, permits, and meters, box rents, money-order fees, and postal savings.

The revenue for the fiscal year 1942 was the largest in the history of the Postal Service, reaching a total of over \$859,000,000. The monthly revenues for the fiscal year 1943 show large increases over the corresponding months of 1942 in spite of the enactment of legislation which extends free service to members of the armed forces. According to available statistics it is interesting to note that free mailings by members of the armed forces amount to approximately 1.45 billion pieces of mail on an annual basis and represent a free service of \$43,000,000. On the other hand, the extended use of the mail service by the public has had the effect of increasing postal revenue and for the most part is responsible for the estimate of \$900,000,000 for 1943. If this estimate is realized, it will be 5 percent more than the actual revenues for the fiscal year 1942. In line with this trend of operation, the estimate of revenue for the fiscal year 1944 has been established at \$910,000,000.

#### EXPENDITURES

The trend of postal expenditures in normal times follows the trend of postal revenues. Since these are wartimes, it is necessary to consider more closely the effect of mail and other operations in relation to expenditures. War activities require greatly expanded communication facilities, both free and paid, and both affect the Postal Service. The number of pieces of penalty mail increased 69 percent, or from 1 billion to 1.7 billion in the past 4 years. During the same period the poundage of penalty mail increased 87 percent, or from 167,000,000 pounds to 312,000,000 pounds. Based on regular postal rates, the revenue value of this mail increased 111 percent, or from \$34,000,000 to \$72,000,000. Thus, the fiscal year 1942 ended with a record high for postal revenues, penalty mailing, and postal expenditures.

Comparison of the estimate for the fiscal year 1944 with the appropriation for 1943 reveals an increase of less than one-half of 1 percent, which is in line with present trends of work load. Since the Postal Service is so far-flung, reaching everyone through 44,000 post offices, it is necessary to follow a budget practice of utilizing supplemental appropriations for many of the activities of the Service. However, the same trend with reference to revenues, mail-handling operations, and expenditure apply as in the regular annual estimates and appropriations, so the financial picture is not distorted by this practice.

The expenditures of the Post Office Department, authorized by the appropriations made for such purposes, are met from postal revenues to the extent that such revenues are available, and any excess of expenditures over such revenues is paid from the general fund of the Treasury. The estimated deficiency for the fiscal year 1943 is \$3,000,000 and for 1944 a surplus of \$3,500,000.

The estimated revenue for 1944 is predicated on the assumption that the present 3-cent letter rate for non-local mail fixed by legislation, which expires on June 30, 1943, will be extended by the Congress to include the fiscal year 1944. Failure to do so would result in an annual loss of postal revenue and a corresponding increase in the postal deficit of approximately \$125,000,000.

### EXPLANATORY STATEMENT

The Department of State is the principal agency of Government responsible under the President for the conduct of our foreign relations. While the more vital decisions on foreign policy are made by the President, all negotiations with foreign countries, including specific measures for the protection of American interests, the promotion of friendly relations between the United States and other countries, and the conduct of the voluminous correspondence with our diplomatic missions abroad and with accredited representatives of foreign powers in this country, are administered by the Department of State.

At the present time approximately 225 diplomatic and consular offices are maintained throughout the world. It has been necessary to close posts in the Axis and Axis-occupied countries, but the war has made necessary greatly expanded activities and increased expenditures at existing posts. Disrupted political and economic conditions throughout the world have imposed a very heavy burden on the Department involving many new problems and greatly increasing the work load. As a result the Department of State will require increased appropriations of approximately \$8,000,000 for 1944.

Foremost among the newer activities is the movement toward hemispheric solidarity which has made it necessary to more than double our foreign establishments in the other American republics. This expansion is the reason for a requested additional appropriation of approximately \$4,300,000 for 1944. Of this amount \$3,400,000 is to provide for the continuation of projects formerly administered by the Coordinator of Inter-American Affairs and the Defense Supplies Corporation. The program for "Cooperation with the American Republics" is based on the reciprocal undertakings and cooperative purposes enunciated in the treaties, resolutions, declarations, and recommendations previously signed unanimously by the

American republics. The projects under this program afford a practical means of carrying out the objective of strengthening the bond of inter-American solidarity.

There has been a marked increase in the number of difficult negotiations with foreign governments, particularly in the fields of export control and foreign economic requirements, shipping, aviation, acquisition and preclusive buying of strategic materials, blocking exports to pro-Axis firms, transportation, and foreign funds control. These negotiations have so increased because of the war that it has become necessary for the Department to establish the Foreign Service Auxiliary to supply additional personnel, particularly for technical and administrative functions, in American diplomatic and consular offices.

In order to prevent exported materials or equipment from falling into the hands of pro-Axis firms the Department of State has published a "Proclaimed List of Certain Blocked Nationals," or blacklist, of approximately 11,000 firms and individuals whose known sympathies are with our enemies, and has taken steps to reduce the activity of all such agencies.

Determining basic economic needs of certain countries requires knowledge of the identity of the principal consumers, their annual consumption, final use of the commodities, data as to domestic production, stocks on hand, possible use of substitute materials, effect on the country's economy if the material is not available for export in sufficient quantity, cargo tonnage needed to sustain the specific areas, and pertinent projects for the maintenance of war industries helpful to the United States.

Increased war production in the United States has required negotiations with foreign governments for the importation into our country of a large number of strategic materials. As the enemy has seized more territory, and

as available shipping has decreased, the United States has found it necessary to increase its imports from nearby areas which are still accessible. Constant attention is given to plans for increasing production and improving transportation in these areas. Preclusive purchases, primarily in countries bordering on Axis-dominated areas, involve detailed and complicated negotiations.

The control of foreign funds in this country involves underlying problems of foreign policy. It is just as important to prevent currency and securities from reaching our enemies as it is to block exports of goods to them. The regulatory and enforcement aspects of foreign funds control are administered by the Treasury Department, but the Department of State must consider all foreign implications of actions in this field. Many complicated problems arise when dealing with release of funds for expenses in diplomatic establishments here or abroad of various foreign countries; release of funds for expenses of other foreign nationals in the United States; questions as to whether financial facilities of this country should be used to permit, or prevent, various trade transactions between this country and third countries, and between certain third countries; and requests for release of blocked funds for shipment of goods for relief and rehabilitation of certain areas of the world.

Other problems which have arisen out of the war are evacuation and welfare of Americans abroad; liaison with the American Red Cross and other relief agencies; insurance of compliance by this and enemy governments with treaty obligations in respect to prisoners of war and alien enemy internees; representation by neutral governments of American interests in enemy-occupied territory; and liaison with governments representing the interests of enemy countries in the United States.

Close liaison must be maintained with other departments and agencies of the Government interested in war activities, particularly the Departments of War, Navy, Treasury, Justice, the War Shipping Administration, War Production Board, Board of Economic Warfare, Lend-Lease

Administration, Office of War Information, and the Coordinator of Inter-American Affairs. Many of these agencies have missions abroad performing services in their respective specialized fields. The Department of State must be informed at all times concerning the work of representatives of other agencies of our Government in order that it may properly carry out its primary responsibility of conducting negotiations with the foreign governments. The liaison work with other departments and agencies has reached unprecedented proportions and has required the assignment of personnel devoted entirely to such duties.

The issuance of passports and visas has become more complicated. With the country at war much detailed work is necessary to make certain that no travel credentials are issued to persons who may become engaged in activities inimical to our national welfare. An important example is the case of American seamen, who are now required to have passports. This is a favored field through which foreign spies attempt to enter the United States. Similarly, the work load required in the issuance of visas to foreign citizens desiring to enter this country has tremendously increased.

The normal communication channels have been so disrupted in many areas of the world that it has become necessary for the Department to incur greatly increased expenditures for courier travel and telegrams in order to safeguard an expanded number of confidential communications. Travel to foreign countries must be by air, in most cases, due to both shortage of steamer facilities and necessity for speed. Costs of transportation items have greatly increased, in some cases more than 50 percent.

All of these expansions have caused proportionate increases in the work and personnel of the administrative and service divisions of the Department, especially those dealing with personnel, accounts, equipment, files, and communications.

**FOREIGN INTERCOURSE**

**AMBASSADORS AND MINISTERS**

**Salaries of Ambassadors and Ministers—**

Salaries, ambassadors and ministers: For salaries of ambassadors and ministers appointed by the President, with the advice and consent of the Senate, to such countries and at such salary rates, not exceeding \$17,500 per annum each, as the President may determine, notwithstanding the provisions of any other law, \$625,000, including also salaries as authorized by section 1740, Revised Statutes, as amended by the Act of April 24, 1939 (22 U. S. C. 3, 121) [ , as follows: Ambassadors Extraordinary and Plenipotentiary to Argentina, Brazil, Chile, China, Colombia, Cuba, France, Great Britain, Mexico, Panama, Peru, Poland, Spain, Turkey, Union of Soviet Socialist Republics, Uruguay, and Venezuela, at \$17,500 each; ]

[Ambassador Extraordinary and Plenipotentiary to Belgium and Envoy Extraordinary and Minister Plenipotentiary to Luxembourg, \$17,500; ]

[Ambassadors Extraordinary and Plenipotentiary to Bolivia, Ecuador, and Paraguay, at \$10,000 each; ]

[Envoy Extraordinary and Minister Plenipotentiary to the Netherlands, \$12,000; ]

[Envoys Extraordinary and Ministers Plenipotentiary to Albania, Australia, Bulgaria, Czechoslovakia, Costa Rica, Denmark, Dominican Republic, Dominion of Canada, El Salvador, Finland, Greece, Guatemala, Haiti, Honduras, Hungary, Iceland, Ireland, Liberia, Lithuania, New Zealand, Nicaragua, Norway, Portugal, Rumania, Union of South Africa, Sweden, Switzerland, Thailand, and Yugoslavia, at \$10,000 each; to Egypt and Saudi Arabia, \$10,000; to Iran and Afghanistan, \$10,000; and to Estonia and Latvia, \$10,000; ]

[In all, not to exceed \$595,000; ]

Provided, That no salary [herein appropriated] shall be paid to any official receiving any other salary from the United States Government: Provided further, That during the [period of the existing state of emergency proclaimed by the President on September 8, 1939] continuance of the present war and for six months after its termination, any Ambassador or Minister whose salary as such is payable from the appropriation "Salaries, Ambassadors and Ministers" and who, prior to appointment as Ambassador or Minister was legally

appointed and served as a diplomatic or consular officer or as a Foreign Service officer, and who, on account of emergent conditions abroad, is unable properly to serve the United States at his regular post of duty, or, on account of such emergent conditions abroad, it shall be or has been found necessary in the public interest to terminate his appointment as Ambassador or Minister at such post, may be appointed or assigned to serve in any capacity in which a Foreign Service officer is authorized by law to serve, and, notwithstanding the provisions of any other law, the payment from such appropriation for the fiscal year [1943] 1944 of the salary of such officer, while serving under such assignment, is hereby authorized: Provided further, That no person, while serving under such emergency appointment or assignment, shall receive compensation in excess of \$9,000 per annum while serving in the continental United States or in excess of \$10,000 per annum while serving elsewhere.

[Salaries of Ambassadors and Ministers: The appropriations for salaries of Ambassadors and Ministers in the Department of State Appropriation Acts, 1942 and 1943, shall be available for salaries of Envoys Extraordinary and Ministers Plenipotentiary to Iran and Afghanistan at the rate of \$10,000 per annum each. ]

[The appropriation "Salaries of Ambassadors and Ministers", contained in the Department of State Appropriation Act, 1943, shall be available for the salary of Mr. Joseph C. Grew, until recently Ambassador to Japan, for all purposes for which such appropriation would have been available had it provided specifically for the salary of an Ambassador to Japan] (22 U. S. **TRANSPORTATION, FOREIGN SERVICE**

**Transportation, Foreign Service—**

Transportation, Foreign Service: To pay the traveling expenses [including travel by airplane when specifically authorized by the Secretary of State,] of diplomatic, consular, and Foreign Service officers, and other employees of the Foreign Service, including Foreign Service inspectors, and under such regulations as the Secretary of State may prescribe, of their families and expenses of transportation of effects, in going to and returning from their posts, and in removing the family and effects of any such officer or employee from any foreign post, and thereafter transporting such family and effects to his post of assignment, to whatever extent may be determined necessary by the Secretary of State by reason of emergency conditions in any country that in his opinion may endanger the life of such officer or employee or any member of his

family, including automobiles as authorized by the Act of April 30, 1940 (54 Stat. 174), and storage of effects while such officers or employees are absent from their permanent posts of duty, including also not to exceed \$190,000 for expenses in connection with leaves of absence; attendance at trade and other conferences and congresses under orders of the Secretary of State as authorized by the Act approved February 23, 1931 (22 U. S. C. 16, 17); preparation and transportation of the remains of those officers and employees of the Foreign Service, who have died or may die abroad or in transit while in the discharge of their official duties, to their former homes in this country or to a place not more distant for interment, and for the ordinary expenses of such interment, and also for payment under the provisions of section 1749 of the Revised Statutes (22 U. S. C. 130) of allowances to the widows or heirs at law of diplomatic, consular, and Foreign Service officers of the United States dying in foreign countries in the discharge of their duties, [**\$717,000**] **\$850,000**, of which amount not to exceed \$50,000 shall be available until June 30 [1944], 1945, for disbursement for expenses of travel under orders issued by the Secretary of State during the fiscal year [1943] 1944: *Provided*, That this appropriation shall be available also for the authorized subsistence expenses of consular and Foreign Service officers while on temporary detail under commission (22 U. EMERGENCIES ARISING IN THE DIPLOMATIC AND CONSULAR SERVICE

Emergencies Arising in the Diplomatic and Consular Service—

Emergencies arising in the Diplomatic and Consular Service: To enable the President to meet unforeseen emergencies arising in the Diplomatic and Consular Service, and to extend the commercial and other interests of the United States and to meet the necessary expenses attendant upon the execution of the Neutrality Act, to be expended pursuant to the requirement of section 291 of the Revised Statutes (31 U. S. C. 107), \$1,500,000, of which not to exceed \$25,000 shall, in the discretion of the President, be available for personal services in the District of Columbia; and of which (without in any way restricting the use of other moneys herein appropriated) \$500,000 shall be available for the protection of American citizens in any foreign country whenever the President shall find that a state of emergency exists endangering the lives of such citizens; and reimbursements by American citizens to whom relief has been extended herunder shall be credited to this appropriation (31 U. S. C. 107; 56 Stat. 474).

## COOPERATION WITH THE AMERICAN REPUBLICS

## Cooperation With the American Republics—

Salaries and expenses: For all expenses necessary to enable the Secretary of State to meet the obligations of the United States under the Convention for the Promotion of Inter-American Cultural Relations between the United States and the other American Republics, signed at Buenos Aires, December 23, 1936, and to carry out the purposes of the Act entitled "An Act to authorize the President to render closer and more effective the relationship between the American Republics", approved August 9, 1939, and to supplement appropriations available for carrying out other provisions of law authorizing related activities, including the establishment and operation of agricultural and other experiment and demonstration stations in other American countries, on land acquired by gift or lease for the duration of the experiments and demonstrations, and construction of necessary buildings thereon; such expenses to include personal services in the District of Columbia; not to exceed [\$85,000] \$125,000 for printing and binding; stenographic reporting, translating and other services by contract, without regard to section 3709 of the Revised Statutes (41 U. S. C. 5); expenses of attendance at meetings or conventions of societies and associations concerned with the furtherance of the purposes hereof; and, under such regulations as the Secretary of State may prescribe, tuition, compensation, [and] monthly allowances [while not in travel status, all to be fixed by the Secretary of State], and enrollment, laboratory, insurance, and other fees incident to training, including traveling expenses in the United

States and abroad in accordance with the Standardized Government Travel Regulations and the Act of June 3, 1926, as amended, of educational, professional, and artistic leaders, and professors, students, *internes*, and persons possessing special scientific or other technical qualifications, who are citizens of the United States or the other American republics, and the expenses of transportation and subsistence of employees, including the cost of transportation of their immediate families and household goods and effects in going to and returning from posts of assignment in foreign countries, and living quarters allowances, including heat, fuel, and light, in accordance with the provisions of the Act of June 26, 1930 (5 U. S. C. 118a): *Provided*, That the Secretary of State is authorized under such regulations as he may adopt, to pay the actual transportation expenses and not to exceed ten dollars per diem in lieu of subsistence and other expenses, of citizens of the other American republics while traveling in the Western Hemisphere, without regard to the Standardized Government Travel Regulations, and to make advances of funds notwithstanding section 3648 of the Revised Statutes; traveling expenses of members of advisory committees in accordance with section 2 of said Act of August 9, 1939 (22 U. S. C. 249a); purchase [and exchange] (not to exceed \$6,000) \$10,950, hire, maintenance, operation, and repair of motor-propelled and animal-drawn passenger-carrying vehicles; [and] purchase of books and periodicals [1,685,000]; rental of halls and boats; and purchase, rental, and repair of microfilming equipment and supplies, and colored photographic enlargements, \$6,000,000; and the Secretary of State is hereby authorized, in his discretion, to make contracts with, and grants of money or property to, governmental and public or private nonprofit institutions and facilities in the United States and the other American republics, including the free distribution, donation, or loan of publications, phonograph records, radio transcriptions, art works, motion-picture films, educational material, and such other material and equipment as the Secretary may deem necessary and appropriate, and such other gratuitous assistance as the Secretary deems advisable in the fields of the arts and sciences, education and travel, publications, the radio, the press, and the cinema; all without regard to the provisions of section 3709 of the Revised Statutes; and, subject to the approval of the President, to transfer from this appropriation to other departments, agencies, and independent establishments of the Government for expenditure in the United States and in the other American republics any part of this amount for direct expenditure by such department or independent establishment for the purposes of this appropriation and any such expenditures may be made under the specific authority herein contained or under the authority governing the activities of the department, agency, or independent establishment to which amounts are transferred: *Provided further*, That any funds herein appropriated which may be transferred to the Federal Security Agency for the Public Health Service shall be available for the salaries and expenses of not to exceed two additional regular active commissioned officers: [Provided further, That the unobligated balance of the \$10,000 transferred to the Civil Aeronautics Board under the authority contained in the Department of State Appropriation Act, 1942, under this heading, is hereby continued available until June 30, 1943. Cooperation with the American republics: Not] *Provided further*, That not to exceed \$100,000 of [the appropriation "Cooperation with the American republics", contained in the Department of State Appropriation Act for 1943,] this appropriation shall be available until June 30, [1944] 1945 (convention of Dec. 23, 1936, 51 Stat. 178; 5 U. S. C. 118e; 22 U. S. C. 501, 502; 56 Stat. 479-480, 719).

## EXPLANATORY STATEMENT

The Treasury Department is primarily a service organization performing many activities of a fiscal nature for all governmental agencies. The tremendous increase in governmental activities accompanying the war effort is reflected in many of the Department's appropriations.

Revenue-collecting and public-borrowing activities have increased rapidly in recent years, and will continue to expand in 1944. Interest on the public debt continues to rise. The functions involved in the receipt, custody, and disbursement of public funds have been accelerated, and will require larger appropriations in 1944. The manufacture of coin, currency, and securities will continue at a rapid pace during 1944, but with only slight variation from the 1943 rate of production.

The regulatory and enforcement activities are tending to level off in 1944; the emergency program of Foreign Funds Control constitutes the largest single element in this picture. Government-wide procurement by the Treasury Department for regular activities will continue at about the same level during 1944; the greatly increased emergency procurement activities are being carried by War, Navy, and lend-lease funds. Treasury Department trust funds reflect increased receipts from social-security taxes.

## DEPARTMENTAL ADMINISTRATION

The administrative expense appropriations for the Office of the Secretary, Division of Research and Statistics, General Counsel, Division of Personnel, Chief Clerk, and Custody of Treasury Buildings provide for the general overhead activities of the Department. An increase of approximately 2 percent is anticipated in the requirements of these offices in 1944.

## REVENUE COLLECTION

The Bureaus of Internal Revenue and Customs have the responsibility of collecting the major portion of the Government's revenues. An increase of 5½ percent is anticipated for 1944 in the administrative expense requirements of the Bureau of Internal Revenue resulting primarily from the lowered personal exemptions carried in the Revenue Act of 1942. These developments will necessitate the handling of approximately 43,000,000 income-tax returns in 1944 as compared with an estimated 35,000,000 in 1943. Refunds of internal-revenue collections are estimated to increase 70 percent in 1944 to \$100,000,000 as a result of the withholding-tax provisions of the Revenue Act of 1942.

The administrative expense requirements of the Bureau of Customs are estimated to be the same in 1944 as in 1943. A decrease in normal peacetime activities has occurred, but this reduction has been offset by the assumption of other duties such as increased guarding of port facilities and greater control over exports, both of which result from the war. Refunds and drawbacks of customs receipts are estimated to continue at the same level.

The Processing Tax Board of Review was abolished and its functions transferred to the Tax Court of the United States by the Revenue Act of 1942.

## GOVERNMENTAL BORROWING

The administrative expense requirements of the Bureau of Public Debt continue to rise in 1944 as a direct result of the tremendous increase in borrowing activities resulting from the war emergency. It is anticipated that interest on the public debt will increase by 62 percent in 1944 as compared with 1943.

## CENTRAL FISCAL SERVICES

The Bureau of Accounts and the Office of the Treasurer of the United States have the responsibilities of receiving,

safekeeping, disbursing, and accounting for the Government's funds. A net increase in the requirements of these offices in 1944 of 18 percent is anticipated, resulting primarily from an estimated increase in the number of checks to be cleared by the Treasurer from 138,400,000 in 1943 to 155,000,000 in 1944. Increases in other activities are partially offset by reductions in Treasury fiscal activities incident to the emergency relief program.

## MANUFACTURE OF COIN, CURRENCY, AND SECURITIES

The requirements for the Bureaus of Mint and Engraving and Printing for 1944 indicate a leveling off of the demand for coin, currency, and securities at the 1943 demand as estimated. Lowered unit costs of production account for a reduction of 4 percent in the estimated costs for the Bureau of Engraving and Printing in 1944.

## REGULATORY AND ENFORCEMENT ACTIVITIES

The regulatory and enforcement programs of the Treasury Department are administered by the Foreign Funds Control, the Comptroller of the Currency, the Bureau of Narcotics, the Secret Service, and the Alcohol Tax Unit of the Bureau of Internal Revenue. The total estimated requirements for these agencies for 1944 indicate a reduction of approximately 10 percent as compared with 1943. A 13-percent reduction in the Foreign Funds Control program is attributable to the transfer of some of its functions to the Alien Property Custodian, and to a decrease in the volume of applications for Foreign Funds Control licenses. A 7-percent reduction in the program of the Bureau of Narcotics results from the virtual stoppage of the flow of narcotics from the Orient and the Near East, which will not be completely offset by the increased work load resulting from increased control over production and illicit traffic in narcotics made necessary by the war.

## GOVERNMENT PROCUREMENT

No change is anticipated in the administrative expenses for regular procurement activities in 1944 as compared with 1943, and emergency relief procurement is being discontinued in 1944. The administrative expenses of the greatly increased procurement activities of the Government incident to the war effort are being carried by War, Navy, and lend-lease appropriations.

## SPECIAL PROGRAMS (INCLUDED UNDER OFFICE OF THE SECRETARY)

A nonrecurring appropriation of \$150,000,000 in 1943 to provide funds necessary for the operation of the Smaller War Plants Corporation by making payments for capital stock will not be required in 1944.

A decrease of 8 percent is anticipated in the payments to Federal land banks and the Federal Farm Mortgage Corporation for the reduction in interest rates on mortgages.

An appropriation for the expenses of absentee voting by members of the land and naval forces will not be required in 1944.

## TRUST ACCOUNTS

The estimates of appropriations for trust accounts for 1944 indicate an increase of 20 percent resulting primarily from increased receipts to the Federal old-age and survivors insurance trust fund and the unemployment trust fund. These increased receipts will be used largely for investment purposes, as only minor increases are anticipated in benefit payments.

**Federal Old-Age and Survivors Insurance Trust Fund—**

Under the provisions of section 201, title II, of the Social Security Act amendments of 1939, approved August 10, 1939, there is created on the books of the Treasury of the United States a trust fund to be known as the "Federal old-age and survivors insurance trust fund", consisting of the securities held by the Secretary of the Treasury for the "Old age reserve account" and the amount standing to the credit of the "Old age reserve account" on the books of the Treasury on January 1, 1940, which securities and amount the Secretary of the Treasury is authorized and directed to transfer to the trust fund, and, in addition, such amounts as may be appropriated to the trust fund as provided in the Act. The Act provides that there is hereby appropriated to the trust fund for the fiscal year ending June 30, 1941, and for each fiscal year thereafter, out of any moneys in the Treasury not otherwise appropriated, amounts equivalent to 100 per centum of the taxes (including interest, penalties, and additions to the taxes) received under the Federal Insurance Contributions Act and covered into the Treasury, with the further provision that the trust fund shall repay to the general fund of the Treasury the amount required by the Social Security Board and the Treasury Department to administer title II and title VIII of the Act and the Federal Insurance Contributions Act (42 U. S. C. 401).

**Cumulative Sinking Fund—**

Sinking fund for retirement of bonds and notes; appropriation: That there is hereby created in the Treasury a cumulative sinking fund for the retirement of bonds and notes issued under the First Liberty Bond Act, the Second Liberty Bond Act, the Third Liberty Bond Act, the Fourth Liberty Bond Act, or under this Act, and outstanding on July 1, 1920, and of bonds and notes thereafter issued, under any of such Acts or under any of such Acts as amended. The sinking fund and all additions thereto are hereby appropriated for the payment of such bonds and notes at maturity, or for the redemption or purchase thereof before maturity by the Secretary of the Treasury at such prices and upon such terms and conditions as he shall prescribe, and shall be available until all such bonds and notes are retired. The average cost of the bonds and notes purchased shall not exceed par and accrued interest. Bonds and notes purchased, redeemed, or paid out of the sinking fund shall be canceled and retired and shall not be reissued. For the fiscal year beginning July 1, 1920, and for each fiscal year thereafter until all such bonds and notes are retired there is hereby appropriated, out of any money in the Treasury not otherwise appropriated, for the purposes of such sinking fund, an amount equal to the sum of (1) 2½ per centum of the aggregate amount of such bonds and notes outstanding on July 1, 1920, less an amount equal to the par amount of any obligations of foreign Governments held by the United States on July 1, 1920, and (2) the interest which would have been payable during the fiscal year for which the appropriation is made on the bonds and notes purchased, redeemed, or paid out of the sinking fund during such year or in previous years (*Mar. 3, 1919, c. 100, sec. 6 (a), 40 Stat. 1311; Mar. 2, 1923, c. 179, 42 Stat. 1427; May 29, 1928, c. 901, sec. 1 (21), 45 Stat. 987; Jan. 30, 1934, c. 6, sec. 14 (b), 48 Stat. 344; 31 U. S. C. 767*).

Additional appropriation for sinking fund: For each fiscal year beginning with the fiscal year 1934, there is authorized to be appropriated, for the purposes of the sinking fund provided in section 6 of the Victory Liberty Loan Act, as amended, in addition to amounts otherwise appropriated, an amount equal to 2½ per centum of the aggregate amount of the expenditures made, out of appropriation made or authorized in this title, on or after the date of the enactment of this Act and on or before the last day of the fiscal year for which the appropriation is made (*July 21, 1932, c. 520, sec. 308, 47 Stat. 724; 31 U. S. C. 767a*).

Further appropriation for sinking fund: To carry into effect the provisions of section 308 of the Emergency Relief and Construction Act of 1932, approved July 21, 1932 (47 Stat. 709), there is hereby appropriated for the fiscal year 1934, out of any money in the Treasury not otherwise appropriated, for the purposes of the cumulative sinking fund provided in section 6 of the Victory Liberty Loan Act, as amended, in addition to amounts otherwise appropriated, a sum equal to 2½ per centum of the aggregate of the expenditures during the fiscal year 1933 from appropriations made or authorized in sections 301 and 302, title III, of the Emergency Relief and Construction Act of 1932 (*Mar. 3, 1933, c. 212, title I, sec. 1, 47 Stat. 1492*).

Further appropriation for sinking fund: To carry into effect the provisions of section 308 of the Emergency Relief and Construction Act of 1932, approved July 21, 1932 (47 Stat. 709), there is hereby appropriated for each fiscal year beginning with the fiscal year 1935, out of any money in the Treasury not otherwise appropriated for the purposes of the cumulative sinking fund provided in section 6 of the Victory Liberty Loan Act, as amended, in addition to amounts otherwise appropriated, a sum equal to 2½ per centum of the aggregate of the expenditures on or after June 30, 1933, from appropriations made or authorized in sections 301 and 302, title III, of the Emergency Relief and Construction Act of 1932 (*Mar. 15, 1934, c. 70, title I, sec. 1, 48 Stat. 428; 31 U. S. C. 767b*).

Further appropriation for sinking fund: For each fiscal year beginning with the fiscal year 1934 there is hereby appropriated, in addition to and as part of, the cumulative sinking fund provided by section 6 of the Victory Liberty Loan Act, as amended, out of any money in the Treasury not otherwise appropriated, for the purpose of such fund, an amount equal to 2½ per centum of the aggregate amount of the expenditures made out of appropriations made or authorized under this Act as determined by the Secretary of the Treasury (*June 16, 1933, c. 90, title II, sec. 210 (b), 48 Stat. 206; 40 U. **Obligations Retired From Federal Intermediate Credit Bank Franchise Tax Receipts—**

Subject only to review and approval by the Farm Credit Administration, each Federal intermediate credit bank, at the end of its fiscal year, after all its necessary expenses and costs of operation for such fiscal year have been paid or provided for, shall apply its net earnings then remaining, first, to make up any losses in excess of its reserves against unforeseen losses and assets of doubtful value; second, to the elimination of any impairment of its paid-in capital and paid-in surplus; third, to the creation and maintenance of reserves against unforeseen losses and assets of doubtful value in such amount as its board of directors may prescribe; fourth, to the payment of 25 per centum of the amount then remaining to the United States as a franchise tax; and fifth, to the payment of the remaining net earnings into its surplus account. The amounts paid as franchise taxes to the United States by Federal intermediate credit banks shall, in the discretion of the Secretary of the Treasury, be used to supplement the gold reserve held against outstanding United States notes, or shall be applied to the reduction of the outstanding bonded indebtedness of the United States under regulations to be prescribed by the Secretary of the Treasury. Should a Federal intermediate credit bank be dissolved or go into liquidation, after the payment of all debts and other obligations as hereinbefore provided, any surplus remaining shall be paid to and become the property of the United States and shall be similarly applied (*50 Stat. 715*).

### EXPLANATORY STATEMENT

The civil functions of the War Department consist of a group of activities which are not directly connected with the Military Establishment and are gathered under a separate head in the Budget to point out a clear delineation between the activities of the War Department related to the Army and those which bear no relation to the active Military Establishment.

Appropriations for The Panama Canal are included in this chapter of the Budget. Although The Panama Canal is not administered by the War Department, it has since 1914 been directly under the supervision of the Secretary of War.

#### CIVIL FUNCTIONS

*Quartermaster Corps.*—The Quartermaster Corps is charged with the function, financed by the appropriation "Cemeterial expenses," of operating, maintaining, con-

structing, and acquiring land for national cemeteries and of procuring headstones for the graves of former soldiers. The funds herein provided are considered to be the minimum necessary for operation and maintenance of existing cemeteries.

*Signal Corps.*—The Alaska Communication System has been operated by the Signal Corps since 1901 and now consists of a radio network of 41 stations including 1 at Seattle. The funds provided herein for the fiscal year 1944 propose the maintenance and operation of the existing system on the pre-war level.

*Corps of Engineers.*—The Corps of Engineers is generally responsible for maintenance and improvement of rivers, harbors, and waterways throughout the country in the interests of navigation and control of floods and related hydroelectric power development. In addition to the maintenance funds shown in the preceding table,

provision is made under the General Public Works Program (p. 728) for works of improvement on the waterways.

The funds for the maintenance and protective security of navigation works and for the survey of modifications and further improvements included in these estimates amount to \$35,700,000, a reduction of \$1,123,500 below the amount appropriated for the current fiscal year. This is the minimum considered necessary to maintain and operate those waterways of importance to the war effort.

While the sum of \$29,979,000 was provided in 1943 for the improvement of existing river and harbor works, no additional funds are included in this Budget for this purpose. General curtailment of construction work not essential to the prosecution of the war eliminates the need in 1944 of all but \$3,200,000, and this amount has been made available through economies effected by the Department in the expenditure of appropriations of prior years.

The funds proposed for the fiscal year 1944 for the flood protection of the lower Mississippi River would provide full maintenance of the channel and flood-control works and continuation of the improvement project at a rate considered to be the minimum which will avoid endangering the completed works. The sum of \$14,000,000 estimated as the needed appropriation for 1944 will be augmented by \$4,000,000 of unobligated balances.

Shortages of manpower, machines, and materials resulting from the war situation have necessitated a complete revision of the general flood-control program. Funds amounting to \$28,859,317 will be available from prior appropriations because of deferment of work planned for prosecution during 1943, and it is proposed to divert this sum to the more urgently needed projects for the fiscal year 1944, including three for the production of hydroelectric power needed in connection with war industry. The nominal sum of \$100 is included for appropriation so that language pertaining to the work will appear in the 1944 appropriation act.

Specific power installation appropriations are limited to those necessary to finance power-plant construction at Bonneville Dam, Columbia River, Oreg. and Wash., and

at Fort Peck Dam, Mont. These estimates include \$500,000 for the completion of the Bonneville plant.

#### THE PANAMA CANAL

*Panama Canal and Canal Zone.*—For the maintenance and operation of the Panama Canal, for the sanitation and government of the Canal Zone, the installation of certain protective works, and the construction of a third set of locks a total of \$107,516,810 was appropriated for the fiscal year 1943. For the fiscal year 1944 the Budget estimates of appropriations amount to \$8,724,000 (including \$2,000,000 for protective works), a net decrease of \$98,792,810. Three main factors account for practically all of this decrease, namely: The bulk of the special protective works will be completed in 1943; no funds in addition to available balances will be required for 1944 for carrying forward the construction of the third set of locks; and \$4,448,913 of prior year appropriations will be reserved for obligation in the fiscal year 1944 to meet part of the requirements for that year. Omitting the special projects for protective works and construction of a third set of locks, the resulting comparable amounts for maintenance and operation of the Canal and the sanitation and government of the Canal Zone become \$13,469,897 for 1943, and \$11,172,913 for 1944, a decrease of \$2,296,984. This decrease is due principally to the deferment, made necessary by war conditions, of certain improvements and betterments but this will not impair the efficient operation and maintenance of the Canal and Canal Zone.

#### TRUST ACCOUNTS

The estimate included for the maintenance and operation of the United States Soldiers' Home, Washington, D. C., to be appropriated from the Soldiers' Home permanent fund, reflects an increase for 1944 sufficient to carry forward operation and maintenance on the same level as 1942 at the current prices. The increase in the 1944 estimate over the 1943 appropriation amounts to \$7,469. Since the 1943 appropriation included \$64,214 for 1942, the total increase for 1944 is \$71,683. The estimates of appropriations for trust accounts indicate a large increase resulting primarily from increased deposits of soldiers with the United States Treasury.

### ESTIMATES OF APPROPRIATIONS

#### MILITARY ACTIVITIES

NOTE.—Because of possible material changes in war conditions, the estimates of appropriations in detail for the fiscal year 1944 will be submitted to the Congress as a part of a supplementary budget in the spring of 1943. However, the summary financial statements include an estimate of total war appropriations and expenditures for the fiscal year 1944 as well as for the fiscal year 1943.

##### FINANCE DEPARTMENT

Trust accounts:

##### Pay of the Army, Deposit Fund—

SEC. 1305, R. S., as amended by Public Law 813, 77th Congress. Any enlisted man of the Army may deposit his savings in sums not less than \$5, with any Army paymaster, who shall furnish him a deposit book, in which shall be entered the name of the paymaster and of the soldier, and the amount, date, and place of such deposit. Effective during the present war and for a period of one year thereafter, any amount heretofore or hereafter so deposited shall be held during such period of his service as may be prescribed by the Secretary of War; shall be accounted for in the

same manner as other public funds; shall be deposited in the Treasury of the United States and kept as a separate fund, known as pay of the Army deposit fund, repayment of which to the enlisted man or to his heirs or representatives shall be made out of the fund created by said deposits; shall not be subject to forfeiture by sentence of court-martial, but shall be forfeited by desertion; and shall be exempt from liability for such soldier's debts: *Provided*, That the Government shall be liable for the amount deposited to the person so depositing the same (*Public Law 813*).

CORPS OF ENGINEERS

To be immediately available and to be expended under the direction of the Secretary of War and the supervision of the Chief of Engineers, and to remain available until expended: *Provided, That any appropriation for civil functions under the Corps of Engineers for the fiscal year 1944 shall be available for contracting in such manner as the Secretary of War may determine to be in the public interest without regard to the provisions of section 3709 of the Revised Statutes or section 3 of the River and Harbor Act of August 11, 1888:*

RIVERS AND HARBORS

Maintenance of Existing River and Harbor Works—

For the preservation and maintenance of existing river and harbor works, and for the prosecution of such projects heretofore authorized as may be most desirable in the interests of commerce and navigation; for survey of northern and northwestern lakes and other boundary and connecting waters as heretofore authorized, including the preparation, correction, printing, and issuing of charts and bulletins and the investigation of lake levels; for prevention of obstructive and injurious deposits within the harbor and adjacent waters of New York City; for expenses of the California Débris Commission in carrying on the work authorized by the Act approved March 1, 1893, as amended (33 U. S. C. 661, 678, and 683); for removing sunken vessels or craft obstructing or endangering navigation as authorized by law; for operating and maintaining, keeping in repair, and continuing in use without interruption any lock, canal (except the Panama Canal), canalized river, or other public works for the use and benefit of navigation belonging to the United States, including maintenance of the Hennepin Canal in Illinois; for payment annually of tuition fees of not to exceed fifty student officers of the Corps of Engineers at civil technical institutions under the provisions of section 127a of the National Defense Act, as amended (10 U. S. C. 535); for examinations, surveys, and contingencies of rivers and harbors; for printing and binding, newspapers, lawbooks, books of reference, periodicals, and office supplies and equipment required in the Office of the Chief of Engineers to carry out the purposes of this appropriation, including such printing as may be authorized by the Committee on Printing of the House of Representatives, either during a recess or session of Congress, of surveys authorized by law, and such surveys as may be printed during a recess of Congress shall be printed, with illustrations, as documents of the next succeeding session of Congress, and for the purchase of [six] two hundred motor-propelled passenger-carrying vehicles and five motorboats: *Provided, That no part of this appropriation shall be expended for any preliminary examination, survey, project, or estimate not authorized by law, [\$66,802,500] \$35,700,000: Provided, That from this appropriation the Secretary of War may, in his discretion and on the recommendation of the Chief of Engineers based on the recommendation by the Board of Rivers and Harbors in the review of a report or reports authorized by law, expend such sums as may be necessary for the maintenance of harbor channels provided by a State, municipality, or other public agency, outside of harbor lines and serving essential needs of*

general commerce and navigation, such work to be subject to the conditions recommended by the Chief of Engineers in his report or reports thereon: *Provided further, That no appropriation under the Corps of Engineers for the fiscal year [1943] 1944 shall be available for any expenses incident to operating any power-driven boat or vessel on other than Government business: Provided further, That not to exceed \$1,000 of the amount herein appropriated shall be available for the support and maintenance of the Permanent International Commission of the Congresses of Navigation and for the payment of the actual expenses of the properly accredited delegates of the United States to the meeting of the Congresses and of the Commission (33 U. S. C. 1, 5, 414-416, 441, 451, 540, 541; 56 Stat. 220-221).*

## THE PANAMA CANAL—Continued

In addition to the foregoing sums there is appropriated for the fiscal year [1943] 1944 for expenditures and reinvestment under the several heads of appropriation aforesaid, without being covered into the Treasury of the United States, and to remain available until expended, all moneys received by the Panama Canal during the fiscal year [1943] 1944 and prior fiscal years (exclusive of net profits for such prior fiscal years) from services rendered or materials and supplies furnished to the United States, the Panama Railroad Company, the Canal Zone government, or to their employees, respectively, or to the Panama Government, from hotel and hospital supplies and services; from rentals, wharfage, and like service; from labor, materials, and supplies and other services furnished to vessels other than those passing through the Canal, and to others unable to obtain the same elsewhere; from the sale of scrap and other byproducts of manufacturing and shop operations; from the sale of obsolete and unserviceable materials, supplies, and equipment purchased or acquired for the operation, maintenance, protection, sanitation, and government of the Canal and Canal Zone; and any net profits accruing from such business to the Panama Canal shall annually be covered into the Treasury of the United States.

There is also appropriated for the fiscal year [1943] 1944 for the operation, maintenance, and extension of waterworks, sewers, and pavements in the cities of Panama and Colon, to remain available until expended, the necessary portions of such sums as shall be paid during that fiscal year as water rentals or directly by the Government of Panama for such expenses.

SEC. 2. [No part of any appropriation contained in this Act shall be used directly or indirectly, except for temporary employment in case of emergency, for the payment of any civilian for services rendered by him on the Canal Zone while occupying a skilled, technical, clerical, administrative, executive, or supervisory position unless such person is a citizen of the United States of America or of the Republic of Panama: *Provided, however,* (1) That, notwithstanding] *Notwithstanding* the provision in the Act approved August 11, 1939 (53 Stat. 1409), limiting employment in [the above-mentioned] *certain* positions to citizens of the United States [from and after the date of the approval of said Act], citizens of Panama may be employed in such positions; (2) that at no time shall the number of Panamanian citizens employed in the above-mentioned positions exceed the number of citizens of the United States so employed, if United States citizens are available in continental United States or on the Canal Zone; (3) that nothing in this Act shall prohibit the continued employment of any person who shall have rendered fifteen or more years of faithful and honorable service on the Canal Zone; (4) that in the selection of personnel for skilled, technical, administrative, clerical, supervisory, or executive positions, the controlling factors in filling these positions shall be efficiency, experience, training, and education; (5) that all citizens of Panama and the United States rendering skilled, technical, clerical, administrative, executive, or supervisory service on the Canal Zone under the terms of this Act (a) shall normally be employed not more than forty hours per week, (b) may receive as compensation equal rates of pay based upon rates paid for similar employment in continental United States plus 25 per centum; (6) this entire section shall apply only to persons employed in skilled, technical, clerical, administrative, executive, or supervisory positions on the Canal Zone

directly or indirectly by any branch of the United States Government or by any corporation or company whose stock is owned wholly or in part by the United States Government: *Provided further,* That the President may suspend from time to time in whole or in part compliance with this section in time of war or national emergency if he should deem such course to be in the public interest].

[SEC. 3. No part of any appropriation contained in this Act or authorized hereby to be expended shall be used to pay the compensation of any officer or employee of the Government of the United States, or of any agency the majority of the stock of which is owned by the Government of the United States, whose post of duty is in continental United States unless such person is a citizen of the United States, or a person in the service of the United States on the date of the approval of this Act who being eligible for citizenship had theretofore filed a declaration of intention to become a citizen or who owes allegiance to the United States. This section shall not apply to citizens of the Commonwealth of the Philippines.]

SEC. [4] 3. No part of any appropriation contained in this Act shall be used to pay the salary or wages of any person who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence: *Provided,* That for the purposes hereof an affidavit shall be considered prima facie evidence that the person making the affidavit does not advocate, and is not a member of an organization that advocates, the overthrow of the Government of the United States by force or violence: *Provided further,* That any person who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence and accepts employment the salary or wages for which are paid from any appropriation in this Act shall be guilty of a felony and, upon conviction, shall be fined not more than \$1,000 or imprisoned for not more than one year, or both: *Provided further,* That the above penalty clause shall be in addition to, and not in substitution for, any other provisions of existing law.

SEC. [5] 4. The Governor of the Panama Canal is hereby authorized to employ by contract or otherwise without [reference] regard to section 3709, Revised Statutes, and at such rates (not to exceed \$50 per day for individuals *exclusive of necessary travel expenses*) as he may determine, the services of architects, engineers, and other technical and professional personnel, or firms or corporations thereof, as may be necessary.

[SEC. 6. No part of any money appropriated by this Act or any other Act, except the appropriation "Contingent expenses, Executive Office", and Acts making appropriations for the Military and Naval Establishments, shall be used for the purchase or exchange of any motor-propelled passenger-carrying vehicle without the specific approval of the Secretary of War] (56 Stat. 224-225).

### EXPLANATORY STATEMENT

#### NATIONAL ADVISORY COMMITTEE FOR AERONAUTICS

Prior to the present war all the laboratory facilities of the National Advisory Committee for Aeronautics were located at Langley Field, Va. In 1940 it became imperative that the facilities be increased to meet the growing demands of the military services. The construction of the Ames Memorial Laboratory at Moffett Field, Calif., and an aircraft engine laboratory at Cleveland, Ohio, was undertaken. Both laboratories will be completed this year. An appropriation of \$3,707,500 is necessary for the last payments on the Ames Laboratory. In addition, the sum of \$60,000 is required for reconstruction of a gust tunnel at the laboratory at Langley Field, Va.

#### TENNESSEE VALLEY AUTHORITY

The Tennessee Valley Authority is a corporation created by the act of May 18, 1933. Its peacetime and wartime activities are demonstrating the value of developing natural resources on a regional basis. By 1944 it will have in operation 22 electric generating plants with a total installed capacity of 1,500,000 kilowatts and will produce in excess of 10,000,000,000 kilowatt-hours of electric energy. The Authority will operate plants producing large quantities of phosphorus, ammonia, and ammonium phos-

phate for the War Department, synthetic rubber ingredients for the Rubber Reserve Corporation, and concentrated superphosphate fertilizers for foreign and home consumption.

The Authority is financed by congressional appropriations and by revenues from the sale of power and fertilizer. Its program has been revised to conform to the nationwide policy of conserving to the utmost the material, equipment, and manpower resources of the Nation. It is confining its construction activities to those projects immediately essential to the war. As a result of the curtailment no new appropriation is required for 1944.

#### VETERANS' ADMINISTRATION

The estimate provides funds for a continuation of the 10-year building program approved in principle by the President, which contemplates an ultimate goal of 100,000 hospital and domiciliary beds. For 1944, it is planned to finance the construction of the new tumor clinic at Hines, Ill., a new facility in South Dakota, additional beds at Dwight, Ill., additional neuropsychiatric beds, and such major reconditioning, replacements, and alterations at existing facilities as are necessary. The program as a whole is expected to provide approximately 1,200 additional hospital beds.

## FEDERAL WORKS AGENCY

The provision made for the fiscal year 1944 under the authorization for Federal-aid highways is mainly to finance those projects within the Federal-aid highway system designated by law as the strategic network of highways. Only about \$7,000,000 of this estimate will be used to repay the States for work formerly done on highways which would not qualify now for approval as necessary to the war. With the exception of this repayment to the States, the remaining portion of this estimate together with \$10,000,000 requested under the authorization for the strategic network highways, shown under Federal Works Agency, page 190, will be necessary to take care of the Federal share of the cost of highways and structures thereon which are definitely necessary for war transportation purposes. At the present time projects under way involve 1,368 miles of road and 375 bridges.

## DEPARTMENT OF AGRICULTURE

The appropriation for "Forest roads and trails" under public works provides for forest highways, which are primarily important to the States and counties within or adjacent to the national forests, and which are a part of the Nation's transportation system. It also provides for forest roads and trails which are open to public travel, but are constructed primarily for the management and protection of the national forests.

The 1944 Budget includes an estimate of \$3,778,723, a decrease of \$3,173,750 below an availability of \$6,952,473 for 1943. The estimate for 1944 provides only for maintenance of existing forest roads and trails.

No appropriation estimate for forest highways is proposed for 1944 inasmuch as estimated expenditures of \$1,007,500 can be made from the balance of a no-year appropriation to be carried over from 1943.

## DEPARTMENT OF THE INTERIOR

During the present year numerous adjustments have been necessary in the public works program of the Department of the Interior because of shortages in material and manpower. Changes in plans for plant locations have materially altered the program of the Bonneville Power Administration for the construction of transmission lines and the program of the Bureau of Reclamation for the installation of hydroelectric generating facilities. The Budget for 1944 carries a net reduction of \$107,778,360, of

which \$84,809,405 is reflected in the estimates for the Bureau of Reclamation and \$21,707,000 in the estimates for the Bonneville Power Administration. All road, trail, and parkway construction by the National Park Service will be suspended in 1944, and Indian Service expenditures will be limited to the maintenance and repair of reservation roads and the construction of several small reclamation improvements requiring no critical materials.

## DEPARTMENT OF JUSTICE

No additional funds for construction work at the several Federal prisons are included for 1944 since balances from prior year appropriations are sufficient to meet the anticipated requirements.

## DEPARTMENT OF STATE

Following general policy of restricting public construction to a minimum no new funds are included in the Public Works estimates of the Department of State for the construction program of the International Boundary Commission, United States and Mexico, for the fiscal year 1944. The unexpended balances of existing appropriations are, however, continued available.

The estimates include \$228,000 for nine small Foreign Service building projects ranging in cost from \$18,500 to \$37,500, two of which are at isolated posts in Africa where adequate living accommodations are virtually unobtainable, and the remaining seven are located in the other American republics.

## WAR DEPARTMENT

The public works program of the War Department is generally limited to those civil functions projects of high importance to the war effort. Unobligated balances will be available to provide the essential projects financed from the appropriations "Improvement of existing river and harbor works" and "Flood control, general." A nominal amount is included in the latter appropriation so that the language will appear in the appropriation act. Also unobligated balances will be available to finance a part of the Mississippi River flood-control program. Funds included for power installations will be sufficient to complete the projects financed under this category. Additional explanation of the programs involved is given in the War Department chapter under the heading of Civil Functions.

Statement of proposed expenditures for purchase, maintenance, repair, and operation of motor-propelled and horse-drawn passenger-carrying vehicles, for the fiscal year ending June 30, 1944, as required by 5 U. S. C. 78

**TENNESSEE VALLEY AUTHORITY**

Appropriation	For purchase				Net cost of new cars	Old vehicles still to be used	Total maintenance, repair, and operation, all cars	Public purpose and users
	New vehicles (motor unless otherwise indicated)		Old vehicles to be exchanged					
	Number	Gross cost	Number	Allowance (estimated)				
Tennessee Valley Authority fund	44	\$56,650	100	\$15,000	\$41,650	958	\$252,570	For use of officials and employees of the Tennessee Valley Authority. All automobiles are pooled in 1 fleet and issued to individual employees when such means of transportation is the most economical and advantageous to the Government. The principal users are field engineers and geologists, land buyers and appraisers, inspectors, supervisors, and administrative officers. Reconnaissance body vehicles are used primarily by engineering field parties for survey and engineering work in reservoir sites, valley mapping, transmission-line surveys, and construction.

**VETERANS' ADMINISTRATION**

**Hospital and Domiciliary Facilities, Veterans' Administration—**

Hospital and domiciliary facilities: For hospital and domiciliary facilities, \$4,557,000, to remain available until expended [and of which amount not to exceed \$500,000 shall be immediately available]: *Provided*, That this amount shall be available for use by the Administrator of Veterans' Affairs, with the approval of the President, for extending any of the facilities under the jurisdiction of the Veterans' Administration or for any of the purposes set forth in sections 1 and 2 of the Act approved March 4, 1931 (38 U. S. C. 438j); *Provided further*, That not to exceed 3 per centum of this amount shall be available for the employment in the District of Columbia and in the field of necessary technical and clerical assistants to aid in the preparation of plans and specifications for the projects as approved hereunder and in the supervision of the execution thereof, and for traveling expenses, field office equipment, and supplies in connection therewith (38 U. S. C. 438j; 56 Stat. 421).

## FLOOD CONTROL

## Flood Control, General—

Flood control, general: For the construction and maintenance of certain public works on rivers and harbors for flood control, and for other purposes, in accordance with the provisions of the Flood Control Act, approved June 22, 1936, as amended and supplemented, including printing and binding, newspapers, lawbooks, books of reference, periodicals, and office supplies and equipment required in the Office of the Chief of Engineers to carry out the purposes of this appropriation, and for the purchase of forty motor-propelled passenger-carrying vehicles and one motorboat, and for preliminary examinations, [and] surveys [of] and contingencies in connection with flood-control [projects authorized by law, \$128,961,700, no part of which shall be available for construction work upon the Table Rock and Bull Shoals Reservoirs projects in the White River Basin], \$100: Provided, That funds appropriated herein may be used for flood-control work on the Salmon River, Alaska, as authorized by law: Provided further, That funds appropriated herein may be used to execute detailed surveys, prepare plans and specifications, and to procure options on land and property necessary for the construction of authorized flood-control projects or for flood-control projects considered for selection in accordance with the provisions of section 4 of the Flood Control Act approved June 28, 1938, and section 3 of the Flood Control Act approved August 18, 1941 (55 Stat. 638): Provided further, That the expenditure of funds for completing the necessary surveys and securing options shall not be construed as a commitment of the Government to the construction of any project: Provided further, That no part of appropriations made available to the Secretary of Agriculture for preliminary examinations and surveys, as authorized by law, for run-off and water-flow retardation and soil-erosion prevention on the watersheds of flood-control projects, shall be obligated [from the tenth day after the effective date of this Act to June 30, 1943,] for initiating work upon new projects or for prosecuting work upon projects heretofore commenced, unless they accord with priorities specifically approved by the Secretary of War and the Secretary of Agriculture (33 U. S. C. 701-701I, 705; 56 Stat. 221-222).

### EXPLANATORY STATEMENT

It has been said that "Congress is the town council for the District of Columbia." In addition to enacting the local laws for the people living at the seat of the Federal Government, Congress appropriates the money required to carry on the functions of the District government and likewise provides by statute for raising the funds necessary to finance these operations. Under the law, Congress requires that District estimates of appropriations, comprising more than 300 items, be submitted to the Bureau of the Budget for scrutiny, processing, and incorporation with the Budget of the United States, along with the estimates of the Federal agencies. Furthermore, while District revenues from all sources are covered into the United States Treasury to the credit of three special funds, namely, the general fund, the highway fund, and the water fund, no expenditures can be made from these accounts without specific appropriation by Congress.

By a recent agreement between the Director of the Bureau of the Budget and the Board of Commissioners of

the District of Columbia, the Federal-District fiscal relationship has been somewhat modified. The Bureau has agreed not to examine the estimates of the District of Columbia in great detail, but to confine its attention more to matters of policy which concern the Federal Government, such as revenue estimates, the allocation of capital outlay moneys, the satisfactory repayment of District indebtedness to the Federal Government, the amount of the Federal contribution, and the balancing of the District Budget.

The financial requirements of the District of Columbia are summarized in the tables which follow this statement. It will be noted from the Summary of Operations that the 1944 general fund expenditure program, excluding debt-retirement payments, is within current revenues. Previously accumulated surpluses are to be used to pay off substantial portions of the several loans made in recent years to the District of Columbia by the Federal Government in connection with various public works and other

programs. The 1944 highway fund program, however, shows a prospective deficit of \$1,000,000, but this may be avoided since the sum comprises a single item, namely, the initial estimated expenditure for the contemplated \$4,500,000 South Capitol Street bridge, the construction of which apparently will be delayed until after the war because of the inability to obtain critical materials. Upon completion of the 1944 water fund program, it is estimated that there will be a small balance to carry over into the next fiscal year.

#### REVENUES OF THE DISTRICT OF COLUMBIA

General fund revenues amount to approximately 80 percent of the total revenues for the District of Columbia. These revenues have been growing in proportion to the upward trend of population, property values, and business conditions occasioned by the war. It is not expected, however, that revenues will show an appreciable increase in 1944, if the population stabilizes as it is expected to do under the pressure for decentralization and the absence of new housing. The largest item of revenue in the general fund is the property tax, amounting to approximately 50 percent. The levy is based on an estimated assessed valuation of \$1,340,000,000 taxed at the rate of \$1.75 per hundred dollars. This valuation is \$11,000,000 higher than this year. Other important items in the 1944 general fund revenues are the tangible personal tax, the corporate income tax, the individual income tax, and beverage taxes, all of which are expected to produce substantial increases over prior year yields.

Revenues for the highway fund have been affected by two offsetting circumstances. The increase in the gas tax from 2 to 3 cents per gallon was expected to provide additional revenues in 1942, but succeeded only in arresting the decline in revenues occasioned by the rationing of gasoline and rubber. In 1943 the gas tax, which provides the bulk of the revenues for the highway fund, is expected to yield only about 70 percent of the amount realized in 1942. No appreciable decline for 1944 is anticipated at this time, although it is realized that further readjustments may be necessary later, and the Budget has been planned accordingly. Other sources of revenue for the highway fund, such as the registration of motor vehicles and issuance of drivers' permits, are expected to decline, principally because of the absence of new cars. This decline may be somewhat offset by the influx of foreign cars to the District of Columbia.

The water fund revenue estimates reflect an increase of slightly more than 11 percent for 1944 over 1943. This estimate is predicated upon the increased use of water and the additional collections of water rents which will result from the new 10 percent penalty provision on overdue bills.

#### APPROPRIATIONS FOR THE DISTRICT OF COLUMBIA

##### GENERAL REVENUE ACCOUNT

Estimates of appropriations for the District of Columbia from the general fund in 1944 are summarized in the preceding table and the total of these estimates exceeds the appropriations for 1943 by approximately 8 percent. Mandatory pay raises account for the largest part of this increase, and the remainder is for increased civil and emergency wartime services. The important items of net increase are explained briefly in the following paragraphs.

*Debt retirement.*—The estimates for debt retirement represent an increase of 130 percent in 1944 over 1943.

The items of debt repayment apply to the loans from the Public Works Administration, the Federal Works Administrator, and the Secretary of the Treasury, while a substantially increased amount is also included for the reimbursement of the United States for land purchases made for the District of Columbia for park, parkway, and playground purposes in the District of Columbia by the National Capital Park and Planning Commission under authority of the Capper-Cramton Act.

*Sewers and refuse.*—The estimates for 1944 for sewers indicate a net decrease of 30 percent from the appropriation for 1943 because of the elimination of construction items due to the inability to obtain materials. Refuse collection and disposal activities have increased approximately 3 percent due to the increase in the population of the District of Columbia and the increase in mileage of streets.

*Public schools.*—There has been about a 4-percent decline in the school population of the District of Columbia despite the great influx of war workers. The necessity of providing school facilities in areas not formerly developed results in an estimated increase of 3 percent in the 1944 expenditure program for public schools.

*Police and fire.*—The Commissioners of the District of Columbia are requesting an additional hundred police for the fiscal year 1944, which will occasion an increase of approximately 6 percent in appropriations for this purpose. On the other hand, there is a 6-percent decrease in the total for fire protection, due to two nonrecurring items, one for equipment, the other for construction.

*Health.*—This activity includes the maintenance of various clinical services, the inspection of food and sanitation, the operation of the Tuberculosis Sanatoria and Gallinger Municipal Hospital, and the support of certain charities. The declining indigency rate in the District appears to be somewhat offset by the increased needs of the larger population. Accordingly, the estimates for these activities show a slight increase in 1944 over 1943.

*Courts.*—Provision is made for the juvenile court, the municipal courts, and the probation system under the District Court of the United States for the District of Columbia. The financial requirements of the courts for 1944 are expected to be 10 percent greater than the appropriations for 1943, chiefly for increases in pay made mandatory by Congress.

*Public welfare.*—The Board of Public Welfare has general supervision over dependents, defectives, and delinquents in the District of Columbia. It includes the executive offices of the Board, the Division of Child Welfare, the jail, the workhouse and reformatory, the National Training School for Boys, the National Training School for Girls, the District Training School, the Industrial Home School for White Children, the Industrial Home School for Colored Children, the Home for the Aged and Infirm, the Municipal Lodging House, emergency relief, home care for dependent children, old age assistance, aid to the blind, and the maintenance of the indigent insane at St. Elizabeths Hospital. For all of these purposes, the financial requirements for 1944 are estimated to be slightly less than the appropriations for 1943.

##### HIGHWAY FUND, GASOLINE TAX, AND MOTOR-VEHICLE FEES

The estimated decline in revenue has necessitated a corresponding curtailment of the normal expenditure program for street improvements. Moreover, the inability to obtain critical materials has caused the construction and repair program to be deferred, but it is anticipated that

highway maintenance activities, the regulation of traffic, the care of trees and parkings, and necessary administrative overhead expenses can be supported by anticipated revenues.

## WATER ACCOUNT

There is a net decrease below 1943 of approximately 36 percent in the estimates for the Water Department, occasioned by the elimination of construction items in 1944.

Certain increases reflect the cost of supplying larger amounts of water not only to residents of the District of Columbia, but to those of Arlington County, Va., the latter service being on a contract basis. The largest item of increase in the water account estimates is that which provides for the enlargement of the capital outlay reserve fund. This reserve is being built up to finance future plant extensions by investing surplus water funds in interest-bearing Federal securities.

[For maintenance and instruction of deaf and dumb persons admitted to the Columbia Institution for the Deaf from the District of Columbia, under section 4864 of the Revised Statutes, and as provided for in the Act approved March 1, 1901 (24 U. S. C. 238), and under a contract to be entered into with the said institution by the Commissioners, \$40,000.]

[For maintenance and instruction of colored deaf-mutes of teachable age belonging to the District of Columbia, in Maryland, or some other State, under a contract to be entered into by the Commissioners, \$10,000: *Provided*, That all expenditures under this appropriation shall be made under the supervision of the Board of Education.]

[For maintenance and instruction of blind children of the District of Columbia, in Maryland, or some other State, under a contract to be entered into by the Commissioners, \$7,500: *Provided*, That all expenditures under this appropriation shall be made under the supervision of the Board of Education] (31 Stat. 844; 34 Stat. 316-321; 56 Stat. 434-435).

**[BUILDINGS AND GROUNDS]****Buildings and Grounds, Public Schools, District of Columbia—**

[For completing the construction of the Kramer Junior High School on land owned by the District of Columbia in the vicinity of Seventeenth and Q Streets Southeast, \$270,125.]

[Not to exceed \$97,500 of the unexpended balance of the appropriation of \$130,625 for beginning construction of an eight-room addition and assembly hall-gymnasium at the Benning School, contained in the District of Columbia Appropriation Act, 1942, is reappropriated and made available for the construction of a temporary eight-room addition at the Benning School, including necessary remodeling of the present building.]

[Not to exceed \$97,500 of the unexpended balance of the appropriation of \$130,625 for beginning construction of an eight-room addition and assembly hall-gymnasium at the Van Ness School, contained in the District of Columbia Appropriation Act, 1942, is reappropriated and made available for the construction of a temporary eight-room addition at the Van Ness School, including necessary remodeling of the present building.]

[Not to exceed \$50,000 of the unexpended balance of the appropriation of \$167,500 for a new extensible eight-room elementary school building, to be located on a site to be acquired in the vicinity of Hillside Road and Alabama Avenue Southeast, contained in the District of Columbia Appropriation Act, 1942, is reappropriated and made available for the construction of a temporary four-room school building on such site.]

[The appropriation of \$45,000 for the completion of six unfinished classrooms at the Lafayette School, contained in the Sixth Supplemental National Defense Appropriation Act, 1942, is made available also for furniture and equipment for those rooms.]

[In all, \$270,125, to be immediately available and to be disbursed and accounted for as "Buildings and grounds, public schools", and for that purpose shall constitute one fund and remain available until expended: *Provided*, That no part of this appropriation shall be used for or on account of any school building not herein specified.]

[Notwithstanding the provision that no part of any appropriation contained in this Act shall be expended for printing or binding a schedule or list of supplies and materials for the furnishing of which contracts have been or may be awarded, the Board of Education is authorized to have printed and bound schedules or lists of supplies, textbooks, and equipment approved by the Board of Education for use in the schools for requisitioning purposes only: *Provided*, That all such expenditures for printing and binding shall have been specifically approved by the Commissioners of the District of Columbia or by the Purchasing Officer and the Auditor for the District of Columbia, acting for such Commissioners.]

[No money appropriated in this Act for the purchase of furniture and equipment and school supplies for the public schools of the District of Columbia shall be expended unless the requisitions of the Board of Education therefor shall be approved by the Commissioners of the District of Columbia, or by the Purchasing Officer and the Auditor for the District of Columbia acting for the Commissioners.]

[The Board of Education is authorized to designate the months in which the ten salary payments now required by law shall be made to teachers assigned to instruction in nature study and school gardening, and in health, physical education, and playground activities.]

[None of the money appropriated by this Act shall be paid or obligated toward the construction of or addition to any building the whole and entire construction of which, exclusive of heating, lighting, plumbing, painting, and treatment of grounds, shall not have been awarded in one or a single contract, separate and apart from any other contract, project, or undertaking, to the lowest responsible bidder complying with all the legal requirements as to a deposit of money or the execution of a bond, or both, for the faithful performance of the contract: *Provided*, That nothing herein shall be construed as repealing existing law giving the Commissioners the right to reject all bids.]

[The school buildings authorized and appropriated for herein shall be constructed with all doors intended to be used as exits or entrances opening outward, and each of said buildings having in excess of eight rooms shall have at least four exits. Appropriations carried in this Act shall not be used for the maintenance of school in any building unless all outside doors thereto used as exits or entrances shall open outward and be kept unlocked every school day from one-half hour before until one-half hour after school hours] (56 Stat. 435-437).

**OPERATING EXPENSES****Salaries and Expenses, Public Schools, District of Columbia—**

*General administration: For all salaries and expenses necessary for the general administration of the public school system of the District of Columbia, including printing and binding not to exceed \$11,500, law books, books of reference, and periodicals; postage for strictly official mail matter; allowances for privately owned automobiles used for the performance of official duties within the District of Columbia (not to exceed \$264 per annum for each automobile); and travel expenses, including attendance at meetings of educational organizations when specifically authorized by the Superintendent of Schools and the Commissioners, \$283,480, of which \$10,000 shall be immediately*

**[The] Hereafter, the plans and specifications for all building provided for in this Act under appropriations administered by the Commissioners of the District of Columbia shall be prepared under the supervision of the municipal architect, and those for school buildings after consultation with the Board of Education, and shall be approved by the Commissioners and shall be constructed in conformity thereto.**

**[No] Hereafter, no part of any appropriation made in this Act shall be paid to any person employed under or in connection with the public schools of the District of Columbia who shall solicit or receive, or permit to be solicited or received, on any public-school premises, any subscription or donation of money or other thing of value from any pupil enrolled in such public schools for presentation of testimonials to school officials or for any purpose except such as may be authorized by the Board of Education at a stated meeting upon the written recommendation of the superintendent of schools.**

Section 6 of the Legislative, Executive, and Judicial Appropriation Act, approved May 10, 1916, as amended, shall not apply from July 1 to September 15, [1942] 1943, to teachers of the public schools of the District of Columbia when employed by any of the executive departments or independent establishments of the United States Government.

The children of officers and men of the United States Army, Navy, and Marine Corps, and children of other employees of the United States stationed outside the District of Columbia shall be admitted to the public schools without payment of tuition.

**[Provided, That a] Hereafter, a bond shall not be required on account of military supplies or equipment issued by the War Department for military instruction and practice by the students of high schools in the District of Columbia.**

No part of the foregoing appropriations for public schools shall be used for instructing children under [five] four years of age except children entering during the first half of the school year who will be [five] four years of age by November 1, [1942] 1943, and children entering during the second half of the school year who will be [five] four years of age by March 15, [1943] 1944: *Provided,*

That this limitation shall not be considered as preventing the employment of a matron and the care of children under school age at the Webster School whose parent or parents are in attendance in connection with Americanization work (56 Stat. 433, 435-436).

Hereafter the salaries of the presidents of the teachers colleges shall be included in the salary schedule for the first assistant superintendent; the salaries of teachers college professors shall be included in salary class 12 for supervising principals; and the salaries of teachers college assistant professors shall be included in salary class 11 for heads of departments and assistant principals; said schedule and classes being prescribed in the Act of June 4, 1924 (43 Stat. 367).

drainage structures, retaining walls, the replacement and relocation of sewers, water mains, and fire-alarm boxes and police-patrol boxes, and replacement of curb-line trees, when necessary, as Federal-aid highway projects under section 1-b of the Federal Aid Highway Act of 1938 (Public, Numbered 584, Seventy-fifth Congress), [\$194,000] \$50,000; to remain available until June 30, [1944] 1945: *Provided*, That in connection with the highway-planning survey, involving surveys, plans, engineering, and economic investigations of projects for future construction in the District of Columbia, as provided for under section 10 of the Federal Aid Highway Act of 1938, this fund shall be available to the extent authorized in said section for the employment of engineering or other professional services by contract or otherwise, and without reference to section 3709 of the Revised Statutes (41 U. S. C. 5), the Classification Act of 1923, as amended, and civil-service requirements, and for engineering and incidental expenses;

For grading streets, alleys, and roads, including construction of necessary culverts and retaining walls, [\$75,000] \$60,000;

[For paving the unpaved center strips of paved roadways \$5,000;]

[For minor changes in roadway and sidewalks on plans to be approved by the Commissioners of the District of Columbia to facilitate vehicular and pedestrian traffic, \$5,000;]

For construction of curbs and gutters, or concrete shoulders in connection with all forms of macadam roadways and adjustment of roadways thereto, together with resurfacing and replacing of base of such roadways where necessary, \$25,000;

For the surfacing and resurfacing or replacement of asphalt, granite block, or concrete pavements with the same or other approved material, [\$300,000] \$100,000;

For the construction of and changes in drainage structures in connection with and in advance of highway and street improvements including suitable connections to the storm-water sewer system, [\$250,000] \$50,000;

For the reconstruction and changes in layout of roadways and curb lines, the construction of directional and pedestrian islands at various intersections to permit of proper traffic light control and channelization of traffic, [\$100,000] \$50,000, including necessary expense of changes in sewer and water lines, traffic lights, fire hydrants, street lights, including all necessary expenses incident thereto;

For construction, maintenance, operation, and repair of bridges, \$105,000;

For grading, paving, surfacing, and otherwise improving such unpaved or inadequately surfaced streets, avenues, and roads in newly developed areas as may be designated by the Commissioners of the District of Columbia and such curbing, gutters, and drainage facilities as may be necessary to insure reasonably satisfactory conditions pending permanent and final improvement, including all necessary expenses incident thereto, [\$300,000] \$50,000;

For current work of repairs to streets, avenues, roads, and alleys, including the reconditioning of existing gravel streets and roads; for cleaning snow and ice from streets, sidewalks, cross walks, and gutters in the discretion of the Commissioners; and including the purchase, exchange, maintenance, and operation of passenger and non-passenger-carrying motor vehicles used in this work, [\$1,025,000] \$495,000, of which amount [\$75,000] \$45,000 shall be available exclusively for snow-removal purposes, and not to exceed \$30,000 thereof to be available for the procurement of snow-removal equipment; *Provided*, That appropriations contained in this Act for highways, sewers, city refuse, and the Water Department shall be available for snow removal when specifically and in writing ordered by the Commissioners: *Provided further*, That the Commissioners of the District of Columbia, should they deem such action to be to the advantage of the District of Columbia, are hereby authorized to purchase a municipal asphalt plant at a cost not to exceed \$30,000;

This appropriation shall be available for the construction and repair of pavements of street railways in accordance with the provisions of the Merger Act, approved January 14, 1933 (47 Stat. 752). The proportion of the amount thus expended which under the terms of the said Act is required to be paid by the street-railway company shall be collected, upon the neglect or the refusal of such street-railway company to pay, from the said street-railway company in the manner provided by section 5 of "An Act providing a permanent form of government for the District of Columbia", approved June 11, 1878, and shall be deposited to the credit of the appropriation for the fiscal year in which it is collected.

**Relief and Rehabilitation, District of Columbia Workmen's Compensation Act—**

This fund is derived from collections of awards against employers made by the United States Employees' Compensation Commission, as compensation for death of employees resulting from injuries, in each case where no person is found to be entitled to such compensation, under the Longshoremen's and Harbor Workers' Compensation Act as extended to certain employments in the District of Columbia. Fines and penalties collected in connection therewith are also credited to the account. One-half of each such collection is available as compensation for injuries increasing previous disabilities, the other half being available for maintenance of employees undergoing vocational rehabilitation. Any portion of the account which, in the opinion of the Commission, is not needed for current requirements, is invested in bonds or notes of the United States or of any Federal land bank, the interest therefrom being credited to this account (44 Stat. 1444, sec. 44; 33 U. S. C. 944; 45 Stat. 600; 19 D. C. Code 11, 12).

SEC. 2. That the services of draftsmen, assistant engineers, levelers, transitmen, rodmen, chainmen, computers, copyists, overseers, and inspectors temporarily required in connection with sewer, water, street, street-cleaning, or road work, or construction and repair of buildings and bridges, or any general or special engineering or construction work authorized by appropriations may be employed exclusively to carry into effect said appropriations when specifically and in writing ordered by the Commissioners, and all such necessary expenditures for the proper execution of said work shall be paid from and equitably charged against the sums appropriated for said work; and the Commissioners in their Budget estimates shall report the number of such employees performing such services, and their work, and the sums paid to each, and out of what appropriation: *Provided*, That the expenditures hereunder shall not exceed \$42,000 during the fiscal year [1943] 1944: *Provided further*, That, excluding inspectors in the sewer department, one inspector in the electrical department, and one inspector in the repair shop, no person shall be employed in pursuance of the authority contained in this paragraph for a longer period than nine months in the aggregate during the fiscal year.

Appropriations in this Act shall be available for payment by the District of Columbia of its contributions as an employer, in accordance with the provisions of the District of Columbia Unemployment Compensation Act (49 Stat. 946).

The Commissioners, or their duly designated representatives, are further authorized to employ temporarily such laborers, skilled laborers, drivers, hostlers, and mechanics as may be required exclusively in connection with sewer, water, street, and road work, and street cleaning, or the construction and repair of buildings and bridges, furniture and equipments, and any general or special engineering or construction or repair work, and to incur all necessary engineering and other expenses, exclusive of personal services, incidental to carrying on such work and necessary for the proper execution thereof, said laborers, skilled laborers, drivers, hostlers, and mechanics to be employed to perform such work as may not be required by law to be done under contract, and to pay for such services and expenses from the appropriations under which such services are rendered and expenses incurred.

SEC. 3. That all horses, harness, horse-drawn vehicles necessary for use in connection with construction and supervision of sewer, street, street lighting, road work, and street-cleaning work, including maintenance of said horses and harness, and maintenance and repair of said vehicles, and purchase of all necessary articles and supplies in connection therewith, or on construction and repair of buildings and bridges, or any general or special engineering or construction work authorized by appropriations, may be purchased, hired, and maintained, and motortrucks may be hired exclusively to carry into effect said appropriations, when specifically and in writing ordered by the Commissioners; and all such expenditures necessary for the proper execution of said work, exclusive of personal services, shall be paid from and equitably charged against the sums appropriated for said work; and the Commissioners in the Budget estimates shall report the number of horses, vehicles, and harness purchased, and horses and vehicles hired, and the sums paid for same, and out of what appropriation; and all horses owned or maintained by the District shall, so far as may be practicable, be provided for in stables owned or operated by said District: *Provided*, That such horses, horse-drawn vehicles, and carts as may be temporarily needed for hauling and excavating material in connection with works authorized by appropriations may be temporarily employed for such purposes under the conditions named in section 2 of this Act in relation to the employment of laborers, skilled laborers, and mechanics.

SEC. 4. That the Commissioners are authorized to employ in the execution of work, the cost of which is payable from the appropriation account created in the District of Columbia Appropriation Act, approved April 27, 1904, and known as the miscellaneous trust-fund deposits, District of Columbia, necessary personal services, horses, carts, and wagons, and to hire therefor motortrucks when specifically and in writing authorized by the Commissioners, and to incur all necessary expenses incidental to carrying on such work and necessary for the proper execution thereof, including the purchase, exchange, maintenance, and operation of motor vehicles for inspection and transportation purposes; such services and expenses to be paid from said appropriation account: *Provided*, That the Commissioners may delegate to their duly authorized representatives the employment under this section of laborers, mechanics, and artisans.

SEC. 5. That the Commissioners and other responsible officials, in expending appropriations contained in this Act, so far as possible, shall purchase material, supplies, including food supplies and equipment, when needed and funds are available, in accordance with the regulations and schedules of the Procurement Division of the Treasury Department or from various services of the Government of the United States possessing materials, supplies, passenger-carrying and other motor vehicles, and equipment no longer required. Surplus articles purchased from the Government, if the same have not been used, shall be paid for at a reasonable price, not to exceed actual cost, and if the same have been used, at a reasonable price based upon length of usage. The various services of the Government of the United States are authorized to sell such surplus articles to the municipal government under the conditions specified, and the proceeds of such sales shall be covered into the Treasury as miscellaneous receipts: *Provided*, That this section shall not be construed to amend, alter, or repeal the Executive order of December 3, 1918, concerning the transfer of office materials, supplies, and equipment in the District of Columbia falling into disuse because of the cessation of war activities.

SEC. 6. No part of the funds appropriated in this Act shall be available for the payment of rental of quarters for any activity at a rate in excess of 90 per centum of the per annum rate paid by the District of Columbia for such quarters on June 30, 1933: *Provided*, That the provisions of this paragraph shall not apply to leases made prior to the passage of this Act, except when renewals thereof are made hereafter: *Provided further*, That the appropriations or portions of appropriations unexpended by reason of the operation of this paragraph shall not be used for any purpose, but shall be impounded and deposited in the Treasury to the credit of the District of Columbia.

SEC. 7. Appropriations contained in this Act shall be used to pay increases in the salaries of officers and employees by reason of the reallocation of the position of any officer or employee by the Civil Service Commission, and administrative promotions within the several grades: *Provided*, That the total reallocation increases under such appropriations shall not exceed \$35,000: *Provided further*, That such reallocation increases and administrative promotions shall be subject to the approval of the Commissioners of the District of Columbia.

SEC. 8. No part of this appropriation shall be available for any expense for or incident to the issuance of congressional tags except to those persons set out in the Act of December 19, 1932 (47 Stat. 750), including the Speaker and the Vice President.

SEC. 9. No part of any appropriation contained in this Act or authorized hereby to be expended shall be used to pay the compensation of any officer or employee of the Government of the United States, or of the District of Columbia unless such person is a citizen of the United States, or a person in the service of the United States or the District of Columbia on the date of the approval of this Act who being eligible for citizenship had theretofore filed a declaration of intention to become a citizen or who owes allegiance to the United States. This section shall not apply to citizens of the Commonwealth of the Philippines.

SEC. 10. No part of any appropriation contained in this Act shall be used to pay the salary or wages of any person who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence: *Provided*, That for the purposes hereof an affidavit shall be considered prima facie evidence that the person making the affidavit does not advocate, and is not a member of an organization that advocates, the overthrow of the Government of the United States by force or violence: *Provided further*, That any person who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence and accepts employment the salary or wages for which are paid from any appropriation contained in this Act shall be guilty of a felony and, upon conviction, shall be fined not more than \$1,000 or imprisoned for not more than one year, or both: *Provided further*, That the above penalty clause shall be in addition to, and not in substitution for, any other provisions of existing law.

[SEC. 11. Title VI of the District of Columbia Revenue Act approved July 26, 1939, as amended, is amended by striking out "June 30, 1942" and inserting in lieu thereof the words "June 30, 1944"] (56 Stat. 458-460).

## EXPLANATORY STATEMENT

The 12 district banks for cooperatives and the Central Bank for Cooperatives (Kansas City, Mo.) were organized to make credit available to farmers' cooperative associations on a business basis and were chartered by the Governor of the Farm Credit Administration pursuant to the provisions of the Farm Credit Act of 1933. Their charters provide for continued existence until dissolved by law.

The initial capital of the banks was subscribed by the Governor of the Farm Credit Administration from funds available in the revolving fund established under the Agricultural Marketing Act of 1929. Government-owned capital in the banks amounted to \$144,000,000 on June 30, 1942, and the capital stock and guaranty fund subscribed by borrowing cooperative associations amounted to \$4,933,300 on that date. During the fiscal year ended June 30, 1941, in accordance with the Federal budgetary program for that year, \$60,000,000 of the Government-owned capital stock in the banks was repaid to the revolving fund in the Treasury, to be available for resub-

scriptions when needed. During the fiscal year 1942, due to the need for capital funds to meet increased requirements for lending purposes, the Governor of the Farm Credit Administration subscribed to additional capital stock in the banks on behalf of the United States Government in the aggregate amount of \$59,000,000, of which all but \$4,000,000 had been paid in by June 30, 1942. It is contemplated that this unpaid subscription of \$4,000,000, together with an additional \$21,000,000 of Government capital subscribed in September 1942, will be paid in to the banks during the fiscal year 1943.

The banks for cooperatives obtain a portion of their funds for lending purposes by discounting certain of their paper with the Federal intermediate credit banks. The Central Bank for Cooperatives may issue debentures but has never availed itself of the authority.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

## EXPLANATORY STATEMENT

The Commodity Credit Corporation, created under the laws of the State of Delaware pursuant to Executive Order No. 6340, dated October 16, 1933, was organized primarily to make loans to producers to finance the carrying and orderly marketing of agricultural commodities. The Corporation was made a part of the Department of Agriculture on July 1, 1939, pursuant to Reorganization Plan No. 1 and the Reorganization Act of 1939. The act of July 1, 1941, continued the Corporation as an agency of the United States to June 30, 1943, or such earlier date as may be determined by the President. Section 302 of the Agricultural Adjustment Act of 1938, as amended and supplemented by the act of May 26, 1941, Public Law 74, Seventy-seventh Congress, as amended by the act of December 26, 1941, Public Law 374, directed the Corporation to make available loans, at the rate of 85 percent of the parity price for the commodity as of the beginning of the marketing year, on the 1941, 1942, 1943, 1944, 1945, and 1946 crops of the commodities cotton, corn, wheat, rice, tobacco, and peanuts for which producers have not disapproved marketing quotas. Section 302 of the Agricultural Adjustment Act of 1938 also authorizes Commodity Credit Corporation, upon recommendation of the Secretary of Agriculture and approval of the President, to make loans on any agricultural commodity. The Agricultural Adjustment Act of 1938 was further amended and supplemented by the act of October 2, 1942, Public Law 729, Seventy-seventh Congress, which establishes the loan rate at 90 percent of the parity price of the commodity at the beginning of the marketing year, except that the President may fix the loan rate for any commodity at not less than 85 percent if he determines that such loan rate is necessary to prevent an increase in

the cost of feed for livestock and poultry and aid in the effective prosecution of the war. This act also provides that loans are to be made available until the end of the 2-year period beginning with the first day of January following a declaration of the termination of hostilities. The increase shown in the volume of business for Commodity Credit Corporation arises partly from higher loan rates and purchase prices required by legislation, and partly from activities designed to support the war effort. These include price supports on crops for which expansion of production is requested by the Secretary of Agriculture, temporary financing of purchases for lend-lease and other war uses, and purchases and imports of needed agricultural commodities from countries friendly to the United States.

The Corporation has a capital stock of \$100,000,000, all of which is held by the United States, and it is authorized, with the approval of the Secretary of the Treasury, to have outstanding at any one time obligations guaranteed by the United States in an aggregate amount of \$2,650,000,000.

The Secretary of the Treasury is required to make an appraisal of all assets and liabilities of the Corporation as of March 31 in each year for the purpose of determining its net worth. If the net worth of the Corporation is determined to be less than \$100,000,000, the Secretary of the Treasury, subject to the appropriation of funds therefor, is required to restore such capital impairment. If the net worth exceeds \$100,000,000, such excess is required to be deposited by the Corporation in the Treasury of the United States as "Miscellaneous receipts."

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

## EXPLANATORY STATEMENT

Disaster Loan Corporation was organized February 15, 1937, in accordance with the act approved February 11, 1937. The Corporation has succession until dissolved by act of Congress. The Reconstruction Finance Corporation subscribed and paid for the original capital of \$20,000,000. The act approved March 4, 1939, increased the capitalization of the Corporation to \$40,000,000, which was subscribed for by Reconstruction Finance Corporation. The Treasury has reimbursed Reconstruc-

tion Finance Corporation for, and now owns, all the paid-in capital, which at present amounts to \$24,000,000.

In accordance with the act approved March 4, 1939, the Corporation is authorized to make loans as it may determine to be necessary or appropriate because of floods or other catastrophes occurring during the period between January 1, 1936, and January 22, 1947.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

## EXPLANATORY STATEMENT

The Export-Import Bank of Washington was organized under the laws of the District of Columbia, pursuant to Executive Order 6581, dated February 2, 1934, to aid in financing and facilitating exports and imports and the exchange of commodities between the United States and other nations, or the nationals or agencies thereof. By act approved January 31, 1935 (49 Stat. 4), as amended by the act of September 26, 1940 (54 Stat. 961), the Bank was continued as an agency of the United States until January 22, 1947, or such earlier date as the President may fix by Executive order.

The present capital stock of the Bank consists of \$1,000,000 of common stock held by the United States and \$174,000,000 of preferred stock held by the Reconstruction Finance Corporation.

By act of March 4, 1939 (53 Stat. 510), the lending authority of the Bank was limited to \$100,000,000 outstanding at any one time, which amount was increased to \$200,000,000 by act of March 2, 1940 (54 Stat. 38). The act of September 26, 1940 (54 Stat. 961), further increases the lending authority to \$700,000,000, within

which amount, loans to the extent of \$500,000,000 outstanding at any one time may be granted, under special conditions, to assist in the development of the resources, the stabilization of the economies and the orderly marketing of the products of the countries of the Western Hemisphere.

The Reconstruction Finance Corporation when requested by the Secretary of the Treasury, with the approval of the President, may continue to supply, from time to time, through loans or by subscriptions to preferred stock the funds needed by the Export-Import Bank of Washington for its operations (49 Stat. 4).

The Export-Import Bank of Washington was placed under the supervision of the Federal Loan Agency Administrator by Reorganization Plan I, part 4, section 402 (c), effective July 1, 1939. By Executive Order 9071 of February 24, 1942, the Bank was placed under the supervision of the Secretary of Commerce.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

## EXPLANATORY STATEMENT

The Federal Crop Insurance Corporation was organized under the act of February 16, 1938, for the purpose of promoting the national welfare by alleviating the economic distress caused by wheat crop failures due to drought and other causes, by maintaining the purchasing power of farmers, and by providing for stable supplies of wheat for domestic consumption and the orderly flow thereof in interstate commerce.

Public Law 118, Seventy-seventh Congress, approved June 21, 1941, authorized the Federal Crop Insurance Corporation to insure producers of cotton, commencing with the cotton crop planted for harvest in 1942. Also, the act authorized the Corporation to accept in payment of premiums, notes payable in the commodity insured, or the cash equivalent, and to purchase for insurance reserve purposes the quantity of the commodity represented by any such notes not paid at maturity. The

premium notes for insuring the wheat and cotton crop will mature approximately at the time of harvest; the maturity dates range in the case of wheat from July to August, and in the case of cotton from August to October.

The Federal Crop Insurance Act provided that the Corporation should have an authorized capital stock of \$100,000,000 to be subscribed by the United States of America. As of June 30, 1942, \$40,000,000 had been made available to the Secretary of the Treasury for purchase of capital stock of the Corporation, and of this amount \$20,000,000 had been requisitioned. The additional \$15,000,000 requisitioned in the 1943 fiscal year is being used to finance the purchase of wheat and cotton and the payment of indemnities prior to the collection of the outstanding insurance notes.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

## EXPLANATORY STATEMENT

The Federal Farm Mortgage Corporation was created under the act approved January 31, 1934 (12 U. S. C. 1016-1020 (h)), to aid in financing the lending operations of the Federal land banks and the Land Bank Commissioner.

The Corporation, which is wholly owned by the United States, had paid-in capital of \$100,000,000 as of June 30, 1942, a repayment to the Treasury in the amount of \$100,000,000 having been made in May 1941. This retirement of stock was made in accordance with the President's

Budget Message of January 3, 1940, and the provisions of an act approved June 25, 1940, and the proceeds are being held in the Treasury of the United States as a fund available for additional capital subscriptions, if necessary.

The Corporation is authorized to issue and have outstanding at any one time a total of not more than \$2,000,000,000 of bonds, which are fully and unconditionally guaranteed by the United States Government.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

## EXPLANATORY STATEMENT

The Federal Housing Administration was created under authority of the National Housing Act approved June 27, 1934 (48 Stat. 1246), "to encourage improvement in housing standards and conditions, to provide a system of mutual mortgage insurance, and for other purposes." The activities of the Administration involve the insurance of lending institutions against loss incurred on loans of the following types:

1. Title I (property improvement): Loans for the purpose of repairing, modernizing, and improving property and the building of new structures. Total liability which may be outstanding at any time, plus the amount of claims paid, less the amount collected from insurance premiums and other sources, shall not exceed \$165,000,000.

2. Title II, section 203 (mutual mortgage insurance): Loans not in excess of \$16,000 secured by mortgages on one- to four-family dwellings. Total insurance liability under this section and section 207 is limited to \$4,000,000,000 except that the President may increase the aggregate amount to \$5,000,000,000.

3. Title II, section 207 (rental housing insurance): Loans not to exceed \$5,000,000, secured by mortgages on large-scale rental properties. Total insurance liability under this section and section 203 is limited to \$4,000,000,000, except that it may be increased by the President to \$5,000,000,000.

4. Title VI, section 603 (war housing insurance): Loans, not to exceed \$12,000, secured by mortgages on one- to four-family dwellings constructed in designated defense areas and preference of occupancy extended to war workers.

5. Title VI, section 608 (war housing insurance): Loans, not to exceed \$5,000,000 secured by mortgages on large scale rental projects.

Total liability under title VI, sections 603 and 608, is limited to \$800,000,000.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

## EXPLANATORY STATEMENT

The Agricultural Credits Act of 1923 (title II of the Federal Farm Loan Act) provided for the establishment of 12 Federal intermediate credit banks. The 12 banks were chartered by the Federal Farm Loan Board during 1923, their term of existence being unlimited.

The authority for supervision of the various Federal intermediate credit banks was transferred to the Farm Credit Administration on May 27, 1933, in conformity with the provisions of Executive Order No. 6084 of March 27, 1933.

The original capital stock of the Federal intermediate credit banks in the amount of \$5,000,000 each was subscribed and paid for by the Secretary of the Treasury on behalf of the United States. By an act approved January 31, 1934, an additional sum of \$40,000,000 was provided, to be allocated to the capital stock and paid-in surplus of any banks. Late in 1940, in accordance with the Federal budgetary program for the fiscal year 1941, the banks returned the \$40,000,000 to the revolving fund in the Treasury, the proceeds of such repayments being held as a fund available for resubscription, if necessary. Thus, on June 30, 1942, the total capital in the banks amounted to \$60,000,000.

The Federal intermediate credit banks have authority, subject to the approval of the Farm Credit Administration, to borrow money from any source and to issue and sell collateral trust debentures or other similar obligations subject to the general limitation that the aggregate amount of such outstanding debentures and similar obligations issued individually by any bank, together with the amount of consolidated debentures issued for its benefit and account, shall not exceed ten times the surplus and paid-in capital of such bank.

The Federal intermediate credit banks pay annually to the United States Treasury a franchise tax equivalent to 25 percent of the amount of earnings remaining after absorption of losses and provision for estimated losses, the elimination of any impairment of paid-in capital, and the creation of necessary reserves.

The principal function of the Federal intermediate credit banks is to supply funds by way of discounts and loans to lending institutions for short- and intermediate-term agricultural loans.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

## EXPLANATORY STATEMENT

The United States Housing Authority was originally created as a body corporate of perpetual duration in the Department of the Interior by the United States Housing Act of 1937, approved September 1, 1937 (50 Stat. 888), to "provide financial assistance to the States and political subdivisions thereof for the elimination of unsafe and insanitary housing conditions, for the eradication of slums, for the provision of decent, safe, and sanitary dwellings for families of low income, for the reduction of unemployment, and the stimulation of business activity \* \* \*". This act was further amended by the United States Housing Act amendment of 1938, approved June 21, 1938 (52 Stat. 820). The United States Housing Authority, under Reorganization Plan No. 1, effective July 1, 1939, was transferred from the Department of the Interior to the newly created Federal Works Agency. The United States Housing Authority was authorized to engage in defense housing activities under title II of Public Law 671, Seventy-sixth Congress, chapter 440, third session, H. R. 9822, approved June 28, 1940. Under date of February 24, 1942, the President, by Executive Order 9070, consolidated the various housing agencies and functions of the

Federal Government into the National Housing Agency. This order provided that the United States Housing Authority and its functions, powers, and duties shall be administered as the Federal Public Housing Authority, which was stated to be one of the three main constituent units of the National Housing Agency. The order further provided that the F. P. H. A. was to administer nearly all of the public housing necessary for the war effort and also housing projects of the Farm Security Administration serving nonfarm families.

The Authority has a capital stock of \$1,000,000 subscribed by the United States and is authorized to issue obligations guaranteed by the United States in an amount not to exceed \$800,000,000 and to make contributions in an amount not to exceed \$28,000,000 per annum.

The receipts, expenditures, and means of financing of the Authority (other than expenditures incurred in connection with the completion of the transferred Public Works Administration Housing Division projects, and expenditures in connection with housing activities transferred under Executive Order 9070) are shown in detail in the foregoing statement.

## EXPLANATORY STATEMENT

The Federal Savings and Loan Insurance Corporation was created pursuant to act of Congress. It is charged with the responsibility of carrying out the provisions of title IV of the National Housing Act approved June 27, 1934 (45 Stat. 1246), as amended, subject to section 7 (a), title IV, of the First Deficiency Appropriation Act, fiscal year 1936 (Public, No. 739, 74th Cong., approved June 22, 1936).

The Corporation protects investors and depositors up to \$5,000 against loss in the event of default of an insured institution. The Corporation is an instrumentality of the United States.

By Executive Order 9070 dated February 24, 1942, the Corporation was included in the consolidation into the National Housing Agency and is one of the units of the Federal Home Loan Bank Administration, formerly the Federal Home Loan Bank Board. The supervision is now under the direction of a single Commissioner, superseding the Board of Trustees composed of five members.

The Corporation's capital stock of \$100,000,000 was purchased and is held by the Home Owners' Loan Corporation.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

## EXPLANATORY STATEMENT

The Home Owners' Loan Corporation was created by the act of June 13, 1933, to grant long-term mortgage loans at low interest rates in order that distressed home owners might refinance their homes and, wherever possible, save them from foreclosure.

By subsequent amendments to the original act, the Corporation became the owner of all of the \$100,000,000 capital stock of the Federal Savings and Loan Insurance Corporation. It was empowered likewise to use not to exceed \$300,000,000 in making certain investments, including shares of savings and loan associations.

The Corporation has a capital stock of \$200,000,000 par value owned by the United States and has authority to issue \$4,750,000,000 in bonds (exclusive of refunding). All unmatured bonds of the Corporation outstanding are

unconditionally guaranteed by the United States Government.

In accordance with the Home Owners' Loan Act of 1933 the Corporation terminated its lending activities on June 12, 1936, and is now principally engaged in servicing the loans outstanding and in managing and disposing of real estate acquired as a result of foreclosure proceedings.

By Executive order, dated February 24, 1942, the Corporation was included in the consolidation into the National Housing Agency, being one of the units of the Federal Home Loan Bank Administration, formerly the Federal Home Loan Bank Board.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

## EXPLANATORY STATEMENT

Title I of the Farm Credit Act of 1933 authorized and directed the Governor of the Farm Credit Administration to organize and charter 12 production credit corporations, one to be established in each city in which a Federal land bank was located.

All of the capital in the production credit corporations is owned by the United States Government, the initial subscription being \$120,000,000. During the early part of the fiscal year ended June 30, 1941, in accordance with the Federal budgetary program for that year, the production credit corporations returned \$15,000,000 of this capital to a revolving fund in the Treasury, to be available for resubscription when needed. During the fiscal year 1942, it became necessary to subscribe for additional capital funds and the paid-in capital of the corporations was

increased by \$15,000,000 in September 1941. Thus, paid-in capital of the corporations totaled \$120,000,000 on June 30, 1942.

The principal function of the production credit corporations is to organize, provide capital for, and supervise local production credit associations which make short-term agricultural loans to their members. As of June 30, 1942, the 12 corporations were supervising the operations of 537 production credit associations, serving farmers in every rural county in the United States, and owned about 79 percent of the total outstanding stock of the associations.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

## EXPLANATORY STATEMENT

By authority granted in section 201 (e) of the Emergency Relief and Construction Act of 1932, approved July 21, 1932, the Reconstruction Finance Corporation created 12 regional agricultural credit corporations to make short-term loans direct to farmers and stockmen in the United States.

The stock of these corporations was subscribed and paid for by the Reconstruction Finance Corporation out of the unexpended balance of the amounts allocated and made available to the Secretary of Agriculture under section 2 of the Reconstruction Finance Corporation acts. All of the stock is now held by the Secretary of the Treasury for and on behalf of the United States. Of the total original capital of \$44,500,000, the corporations have returned to a revolving fund set up under section 84 of the Farm Credit Act of 1933 the sum of \$39,500,000, leaving outstanding stock in the amount of \$5,000,000.

On May 27, 1933, the functions of the Reconstruction Finance Corporation relating to the affairs of the regional agricultural credit corporations were transferred to the Farm Credit Administration.

Since May 1, 1934, the regional agricultural credit corporations have been in process of orderly liquidation, the

short-term credit needs of agriculture being provided for by other permanent organizations administered by the Farm Credit Administration. In accordance with authority granted by the Farm Credit Act of 1937, the Farm Credit Administration has effected the consolidation or merger of various of the corporations so that on June 30, 1942, there were only three in existence. In addition, there was a branch office at Wenatchee, Wash., which was established late in 1940 for the purpose of extending credit to apple growers in that area. The severe economic distress faced by the apple industry in the Pacific Northwest as the result of the closing down of export markets and other factors had created a most urgent need for credit which it was believed could best be met by the regional agricultural credit corporations. It may be necessary to place the corporations on an active basis in the near future in order to meet credit needs in certain agricultural operations which cannot be adequately taken care of by other governmental credit agencies, and which operations are necessary for the production of essential agricultural products.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

## EXPLANATORY STATEMENT

The Reconstruction Finance Corporation was created as a body corporate by the act approved January 22, 1932, for the purpose of providing funds, through loans to be made by the Corporation, to counteract the then existing restriction of private credit. The enactment creating the Corporation authorized it to extend financial assistance to banks and other financial institutions and to various classes of borrowers for agricultural, commercial, and industrial purposes. The Corporation's powers have been expanded from time to time by subsequent legislation. The succession of the Corporation was originally established at 10 years but has been extended by subsequent legislation to January 22, 1947. The capital stock of the Corporation was originally established at \$500,000,000, the stock being subscribed for by the Secretary of the Treasury from the proceeds of an appropriation authorized by the act creating the Corporation. The act approved June 25, 1940, authorized the Corporation to retire part of its capital stock, to pay dividends thereon, and to purchase the stock of any Federal home-loan bank held by the Treasury, the amount to be paid to the Treasury for any or all such purposes not to exceed \$300,000,000. Pursuant to this act and the President's Budget Message of January 3, 1940, relative to excess capital funds of corporations, the Reconstruction Finance Corporation reduced its capital stock to \$325,000,000, returning \$175,000,000 to the Treasury.

The Corporation was also authorized by the act of its creation to issue a limited amount of notes, debentures, or other such obligations, which authority has been variously increased and decreased by subsequent legislation. The Secretary of the Treasury is authorized to purchase such obligations of the Corporation.

The financing operations of the Corporation are carried out in one of three ways. First, the Corporation is authorized, in its discretion to make various classes of

loans and to purchase various types of obligations and corporate stock. Second, the Corporation, upon the direction of Congress, is required to provide funds to certain agencies of the Government for the financing of various programs which such agencies are authorized to undertake. Third, the Corporation is authorized, in its discretion, to make loans to and to purchase the capital stock of the subsidiary corporations which, under various amendments of the Reconstruction Finance Corporation Act, it is authorized to create or organize. These various types of operations are indicated in the foregoing statement.

The direct operations of the Corporation include loans to banks, railroads, business enterprises, mining interests, public agencies, agricultural marketing organizations, etc., and purchases of stock in banks, insurance companies, mortgage corporations, and corporations engaged in defense activities, as well as the administrative expenses incurred in connection with the operations of the Corporation. Direct receipts include repayments of principal and interest in connection with the foregoing loans and the proceeds accruing from the sale or redemption of obligations purchased.

Funds allocated at the direction, or upon the authorization, of Congress have been employed to purchase the capital stock of the Disaster Loan Corporation, regional agricultural credit corporations, the Home Owners' Loan Corporation, the Federal home-loan banks, the Export-Import Bank of Washington, the Federal Farm Mortgage Corporation, The RFC Mortgage Company, the Federal National Mortgage Association, and the following corporations created by the Reconstruction Finance Corporation pursuant to section 5d of the Reconstruction Finance Corporation Act, as amended: Defense Plant Corporation, Defense Supplies Corporation, Rubber Reserve Company, Metals Reserve Company, War Damage Corporation, and

U. S. Commercial Company. Funds of the Corporation have also been supplied, other than through capital stock subscriptions, to the Federal Emergency Relief Administration, Farm Credit Administration, Farm Security Administration, Federal Housing Administration, Commodity Credit Corporation, the Rural Electrification Administration, Defense Homes Corporation, and the Corporations created by the Reconstruction Finance Corporation pursuant to the said section 5d, and have been used for the purchase of securities from the Federal Emergency Administrator of Public Works and for transfer to the appropriation made by the Emergency Relief Act of 1935. Obligations of the Corporation have been canceled pursuant to the act approved February 24, 1938, in an amount equivalent to most of the funds so provided.

The act approved February 24, 1938, authorized and directed the Secretary of the Treasury to cancel the obligations of the Corporation in an amount equal to the investments or advances of the Corporation made at the direction of Congress to various agencies of the Government, including such advances for relief purposes. The act provides also for the cancelation of obligations as respects future disbursements which may be made within the same

categories. The act approved March 28, 1941, directing Reconstruction Finance Corporation to make funds available for the defense housing insurance fund also provides for the cancelation of obligations in an amount equivalent to the funds made available for such purpose. Under the authority of the first-mentioned act, obligations totaling approximately \$2,741,000,000 had been canceled as of November 30, 1942.

Reorganization Plan No. I, promulgated by the President pursuant to the Reorganization Act of 1939, provides that Reconstruction Finance Corporation shall be grouped under the Federal Loan Agency and subject to the supervision of the Federal Loan Administrator.

Executive Order No. 9071, dated February 24, 1942, transferred the powers, functions, and duties of the Federal Loan Administrator and the Federal Loan Agency, which related to Reconstruction Finance Corporation and its subsidiaries and affiliates (other than Defense Homes Corporation), to the Department of Commerce, to be exercised under the direction and supervision of the Secretary of Commerce.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

## EXPLANATORY STATEMENT

The Tennessee Valley Authority is a corporate regional agency owned by the Government of the United States. It was created on May 18, 1933, to control the Tennessee River system for navigation, alleviation of floods, and power production; to manage the Government's munitions plants at Muscle Shoals, Alabama, for fertilizer production in peacetime and munitions production in wartime; and to cooperate with Federal, State, and local governmental agencies in the development of the natural resources and industries of the region. Congress has appropriated to date \$667,969,270 from the general funds of the Treasury to assist in financing the program.

The Authority is requesting no new appropriated funds from Congress for the fiscal year ending June 30, 1944. It is estimated that the reappropriation of the unexpended balance of the funds already appropriated by the Congress plus the Authority's receipts from power sales and other sources will be sufficient to finance all the projects under construction as well as to pay operating costs.

Funds thus made available will also provide a reserve for resumption of work on presently deferred projects (principally Watauga and South Holston Dams) should any of them be reinstated by the War Production Board in the 1944 fiscal year.

Revenues from the sale of electric power are estimated to amount to \$38,500,000 in the 1944 fiscal year, or enough to pay all power expenses (including payments in lieu of taxes and reserves for depreciation) and produce a return of approximately 4 percent on the investment allocated to power.

The Authority now has in service on its power system an installed capacity of 1,500,000 kilowatts. In operation or in process of construction are thirty major projects, dams developed for navigation, flood control, and power, and steam-generating plants. Twenty-two are in operation, of which eleven were built by TVA forces, nine were acquired from privately owned utilities, and two were transferred from the Federal Government. Six dams are under construction by TVA forces, and two are in process of construction but deferred by order of the War Production Board because of shortages in materials and manpower.

The existing system is furnishing 70 percent of its total generation to industries engaged in war production. Nine large industries are served directly by the Authority. In addition, approximately 450,000 customers are being served with TVA power through the distribution systems of 83 municipalities and 45 cooperatives.

War production requirements will continue to be met by new generating capacities totaling 615,000 kilowatts which are now being installed on high priorities.

It is estimated that in 1944 TVA will produce 10,000,000,000 kilowatt-hours of power and that 80 percent of it will go to war industries, principally in the production of aluminum and chemicals. Approved projects and generating units that have been deferred will, when construction is resumed, supply a still further generating capacity of 750,000 kilowatts.

Munitions plants operated by the Authority are producing large quantities of phosphorus, ammonia, and ammonium nitrate for the War Department, and synthetic rubber ingredients for the Rubber Reserve Company. Concentrated superphosphate fertilizers are being produced, of which the major part is going to our Allies to sustain their war-food production, and the remainder is used to continue, so far as quantities permit, a test-demonstration farm program contributing to domestic war-food production. Prior to the war, the major portion of the fertilizer output went to the demonstration program conducted by the agricultural extension services in thirty States to promote improved farm-management practices and to test the fertilizers under practical farming conditions. Active test-demonstration farms numbered 26,662 on October 1, 1942.

The navigation channel in the Tennessee River, already useful for four-fifths of the length of the waterway, will be substantially completed in the calendar year 1943 from the mouth, at Paducah, Kentucky, to the headwaters, at Knoxville, Tennessee, a distance of 650 river miles. Four public terminals will be in operation by TVA on the main stream, with a fifth TVA terminal for the handling of coal in operation on a tributary central to the coal-producing area in Tennessee. Freight on the waterway is estimated to exceed 500,000,000 ton-miles in the fiscal year 1944, based on the assumption that war emergency transportation conditions will continue to exist.

Flood-control storage amounting to 6,000,000 acre-feet already has been provided in the Authority's reservoirs and will be increased to 13,000,000 acre-feet by the projects now under construction. The total storage will, it is estimated, reduce flood crests on the Mississippi River by as much as 3 feet at Cairo, Illinois, and by lesser amounts for three-fourths of the distance between Cairo and New Orleans.

The Authority is mapping extensive strategic areas for the War Department. War workers' houses are being built and operated for Federal housing agencies. The Authority's research and development activities are facilitating the mobilization of mineral, forest, and agricultural resources of the region for war.

## EXPLANATORY STATEMENT

The RFC Mortgage Company was organized on March 14, 1935, under the laws of the State of Maryland. By authority of section 5 (c) of the Reconstruction Finance Corporation Act, as amended, the Reconstruction Finance Corporation subscribed and purchased the entire stock of the Company, amounting to \$25,000,000. Additional funds required to carry on the business of the Company

are obtained by loans from the Reconstruction Finance Corporation.

The principal functions of the Company are to make loans upon urban income-producing properties and to provide a market for mortgages through the purchase thereof.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

APPENDIX I

EXPLANATION OF THE ESTIMATES OF REVENUES UNDER EXISTING LEGISLATION

Revenues of the Federal Government under existing legislation are estimated each December by the Treasury Department for the current fiscal year and for the following fiscal year.

The estimates of revenue from most sources are dependent in varying degrees upon prevailing business conditions, hence it is necessary for the Treasury to forecast the general business situation, in terms of its various components, for approximately a year and a half ahead. These forecasts are based upon the analysis of a wide variety of financial and other economic data. They involve forecasts of a number of important economic series which strongly affect the various sources of Federal revenue, such as the volume of industrial production, the trends of commodity prices, security prices, employment, and pay rolls, etc. From these, in turn, forecasts are made of corporation incomes, individual incomes, and the volume of consumption of various commodities upon which taxes are levied.

In its present forecast of revenues, the Treasury recognizes a situation different in many important respects from any heretofore encountered. The estimates are based in part upon the program of Government expenditures outlined elsewhere in the Budget. The conversion of factories to an all-out war effort has curtailed, and will further curtail, the sources of revenue from many important excise taxes. On the other hand, industrial production, employment, and pay rolls will continue upward to new record levels under the huge increases in Government expenditures scheduled for the 1943 and 1944 fiscal years. This will further expand the bases for the corporation and individual income taxes. It is recognized that the present revenue forecasts may need to be revised from time to time as changes occur in the general outlook.

The fluctuations in the various indices of business activity and consumer incomes may not be reflected immediately or in direct proportion, in the various sources of revenue. This results to some extent from the relative stability of certain of the tax bases. However, because of greater emphasis on taxes based on income and profits, the receipts of the Federal Government have become, except for the statutory lag in collections, more sensitive to changes in business conditions. This is particularly true of the present period, in which the requirements of war expenditures have resulted not only in increasingly progressive income-tax rate schedules but also in the reintroduction into the corporate income-tax system of an excess-profits tax.

The variation in the length of the interval between the creation of the tax liability and the receipt by the Government of the tax payment based on that liability is also important. The tax on the sale of certain commodities or services is collected in advance of the sale or use of these commodities. The most important of the taxes collected in this manner are the taxes on cigarettes, distilled spirits and fermented malt liquors, and the use tax on motor vehicles. On the other hand, the payment of an estate tax may be deferred as long as 15 months after the date of death.

Because of the magnitude of the income-tax receipts, the lag between the time income is received by the tax-

payer and the time of payment of taxes based on such incomes, is of particular significance. Thus, in general, the changes in incomes in the calendar year 1942 will not be reflected in income-tax receipts until the income-tax returns in respect of calendar year 1942 incomes are filed on or before March 15, 1943. Because of the privilege of making quarterly installment payments of these tax liabilities, the receipts will be received throughout the calendar year 1943, thus falling into the receipts of the fiscal years 1943 and 1944. Hence, the estimated current income-tax receipts, both corporation and individual, for the fiscal year 1943 are made up partly of payments on calendar year 1941 incomes and partly of payments on calendar year 1942 incomes. Similarly, fiscal year 1944 estimates of income-tax receipts include payments based upon the incomes of each of the calendar years 1942 and 1943.

Receipts during the fiscal year from the collection at the source of the 5 percent tax on salaries and wages in excess of an annual rate of \$624, however, are derived principally from incomes during the year ending 3 months before the close of the fiscal year. The tax is to be collected by the withholding agents currently and paid over to the Treasury quarterly before the end of the month following the close of the quarter. Consequently, 3 months' (January-March) withholdings in respect of the calendar year 1943 salaries and wages will be received by the Government in the fiscal year 1943 but the other 9 months' withholdings in respect of the calendar year 1943 salaries and wages plus 3 months' withholdings of the calendar year 1944 will be received in the fiscal year 1944.

TOTAL RECEIPTS

Total receipts, general and special accounts, are estimated (on the daily Treasury statement basis, unrevised) in the amounts of \$24,552 millions in the fiscal year 1943 and \$35,407 millions in the fiscal year 1944. The estimated total receipts in the fiscal year 1943 exceed by \$10,884 millions the actual total receipts of \$13,668 millions in the fiscal year 1942, while estimated total receipts in the fiscal year 1944 represent an increase of \$10,854 millions over the estimated total receipts in the fiscal year 1943.

The following table shows the percentage distribution of the classified sources of revenue of the actual receipts in the fiscal years 1941 and 1942 and of the estimated receipts in the fiscal years 1943 and 1944:

Estimated receipts from each important source of revenue in the fiscal years 1943 and 1944, and actual receipts in the fiscal year 1942, are compared below. The details of the estimated and actual receipts are shown in table 4, page A1.

## FISCAL YEAR 1943

Total receipts in general and special accounts in the fiscal year 1943 are estimated at \$24,552 millions, an increase of \$10,884 millions over the actual total receipts of \$13,668 millions in the fiscal year 1942.

Tremendous expansion of business activity consequent upon the entry of the United States into the war has raised incomes to higher levels among practically all classes of income recipients. New tax legislation has broadened considerably the tax base by lowering the exemptions. The tax rates are much higher than under previous tax laws. The combined influence of these factors is responsible for the large increase of the estimated receipts in the fiscal year 1943 over the fiscal year 1942. Receipts in the fiscal year 1943 are affected by the Revenue Acts of 1941 and 1942 as well as by certain minor tax legislation. Because of the statutory lag in receipts, the receipts in the fiscal year 1943 do not represent the full effect of the legislation in the calendar years 1941 and 1942. This is particularly true of current income taxes.

The estimated receipts in the fiscal year 1943 and actual receipts in the fiscal year 1942 are compared, by major sources, in the following table:

*Direct taxes on individuals.*—The direct taxes on individuals, composed of the individual income tax, the Victory tax, and the estate and gift taxes, are estimated at \$8,339 millions in the fiscal year 1943, compared with actual receipts of \$3,695 millions in the fiscal year 1942.

Individual income-tax and Victory-tax receipts in the fiscal year 1943 are estimated at \$7,797 millions. Actual receipts were \$3,263 millions in the fiscal year 1942. Of the increase of \$4,534 millions, the amount withheld at the source on one quarter of the calendar year 1943 liability under the new Victory-tax accounts for \$535 millions. Apart from the new Victory tax, this increase is caused by the rise in income levels, the increase in tax rates, and the broadening of the income-tax base determining fiscal year 1943 receipts as compared with fiscal year 1942 receipts.

The amounts withheld at the source on salaries and wages paid during the first quarter of the calendar year 1943, computed at 5 percent on the excess over an exemption fixed at the annual rate of \$624 per recipient, are included in the tabular presentation of estimates as Victory-tax receipts since the amounts withheld apply first in liquidating the Victory-tax liability. The more important exemptions from collection at the source on salaries and wages (but not from ultimate liability for

Victory tax) consist of the great bulk of remuneration for services in the armed forces, for agricultural labor, for domestic service, and for casual labor.

Individual income-tax receipts, excluding the Victory tax, in the fiscal year 1943 are composed of receipts from liabilities on calendar year 1941 incomes amounting to \$1,415 millions, receipts of \$5,712 millions from liabilities on calendar year 1942 incomes, and \$135 millions of back taxes, while fiscal year 1942 receipts are comprised of \$544 millions of liabilities on calendar year 1940 incomes, \$2,564 millions of liabilities on calendar year 1941 incomes, and \$155 millions of back taxes. Of the increase of \$4,019 millions in regular income-tax receipts, excluding back taxes, approximately \$3,148 millions result from the increased tax rates and broadened base of the Revenue Act of 1942 over the Revenue Act of 1941 and from the increase of income in the calendar year 1942 over 1941, and \$871 millions result from corresponding comparisons of the Revenue Acts of 1941 and 1940 and of the levels of income in the calendar years 1941 and 1940.

The 1941 act personal exemptions of \$1,500 for married couples and heads of families and \$750 for single persons were reduced to \$1,200 and \$500, respectively, in the 1942 act. However, for members of the armed forces below the grade of commissioned officer, exclusions of \$300 for married couples and heads of families and \$250 for single persons were granted from gross income of salary received by such personnel for active service. The base was further broadened by reducing the dependent credit from \$400 to \$350. Surtax rates were increased throughout the entire schedule, ranging from an increase of more than double on the first \$2,000 of surtax net income (from 6 percent to 13 percent) to an increase of  $\frac{1}{5}$  on surtax net income over \$5 millions (from 77 percent to 82 percent). The normal tax rate was increased from 4 percent to 6 percent. On the other hand, the base is reduced by the allowance of deductions for certain medical expenses and certain State retail sales taxes. Small reductions of tax yield result from additions of certain minerals entitled to 15-percent depletion allowance, a 2-year carry-back of net operating losses, a change in the computation of the tax liability of taxpayers whose fiscal years do not coincide with the calendar year, and an additional exclusion from gross income of pensions, annuities, etc., for disability resulting from military service.

Estate tax receipts are estimated to be \$500 millions in the fiscal year 1943. This is an increase of \$160 millions, or 46.9 percent, over actual receipts of \$340 millions in the fiscal year 1942. The estimated increase is a result primarily of the higher rates of the Revenue Act of 1941 applicable to approximately 50 percent of the returns filed in the fiscal year 1943. A lag of approximately 15 months between the date of death and the date of filing the return is responsible for the fact that only a part of the returns filed in the fiscal year 1943 will be subject to the higher rates of the Revenue Act of 1941.

Gift-tax receipts in the fiscal year 1943 are estimated at \$41 millions. This is a decrease of \$51 millions, or 55.1 percent, as compared with actual receipts of \$92 millions in the fiscal year 1942. The receipts in the fiscal year 1942 were the result of a large volume of gifts made in the calendar year 1941, caused in large measure by the increased estate-, income-, and gift-tax rates contained in the Revenue Act of 1941. The estimated receipts in the fiscal year 1943, however, represent gift taxes based on a normal year of gifts made without comparable special incentives and following a year in which an abnormal volume of gifts had been made. The estimated receipts represent a large

decrease from the fiscal year 1942 even though the increased rates of the Revenue Act of 1941 are applicable to the gifts upon which the fiscal year 1943 receipts will be based.

*Direct taxes on corporations.*—The direct taxes on corporations, comprising the corporation-income tax, the excess-profits tax, the declared-value excess-profits tax, and the capital-stock tax, are estimated at \$10,070 millions in the fiscal year 1943 compared with \$5,022 millions of actual receipts in the fiscal year 1942.

Corporation income-tax receipts, normal tax, and surtax, excluding back taxes, are estimated at \$3,750 millions in the fiscal year 1943 and represent an increase of \$986 millions or 35.7 percent over actual fiscal year 1942 receipts from this source of \$2,764 millions. Receipts in the fiscal year 1943 represent the collection of income-tax liabilities incurred in respect of the incomes of the calendar years 1941 and 1942, whereas the fiscal year 1942 receipts reflect liabilities for the calendar years 1940 and 1941 incomes. While receipts of calendar year liabilities are not divided evenly between the 2 fiscal years affected, the proportions are such that, for the purpose of simplifying the explanation of results, the calendar year common to both may be eliminated in comparing receipts for 2 fiscal years. Thus, in comparing the fiscal years 1943 and 1942, the calendar year 1941 may be disregarded and the increase in receipts in the fiscal year 1943 over those in the fiscal year 1942 may be attributed almost entirely to the change in income levels and methods of taxation in the calendar year 1942 as compared with the calendar year 1940. However, only part of the full calendar year 1942 increase in liabilities, roughly 50 percent, is reflected in the fiscal year 1943 receipts.

In respect of the calendar year 1940 incomes only one income tax, the normal tax, was imposed on corporations. Corporations with normal tax net income of \$25,000 or less were taxed at bracket rates of 13.5 percent, 15 percent, and 17 percent. The addition of the defense tax equal to 10 percent of the regular tax raised the rates to 14.85 percent, 16.5 percent, and 18.7 percent. Corporations with normal tax net income in excess of \$25,000 were taxed at a rate of 22.1 percent, which was raised to 24 percent by the defense tax. This rate applied to total normal tax net income. Corporations with normal tax net income in excess of \$25,000 were allowed an alternative to the above method of computing the tax. The alternative method was to tax the portion of normal tax net income under \$25,000 at the bracket rates that are applicable to corporations with normal tax net income under \$25,000, and to tax the portion in excess of \$25,000 at a 35-percent rate. This alternative method resulted in a lower tax if normal tax net income did not exceed \$38,565.89. Above that net income it was advantageous to the corporation to compute the normal tax at the flat rate of 24 percent applicable to its entire normal tax net income.

These tax rates were changed only slightly by the Revenue Acts of 1941 and 1942. In 1942 corporations with normal tax net income of \$25,000 or less were taxed at bracket rates of 15 percent, 17 percent, and 19 percent. Those with net income in excess of \$25,000 were taxed at 24 percent. Corporations with normal tax net income in excess of \$25,000 but not over \$50,000 were allowed an alternative to the above method of computing the normal tax. The alternative method was to tax the first \$25,000 of normal tax net income at the bracket rates applicable to corporations having not more than \$25,000 of normal tax net income, and to tax the portion of normal tax net income in excess of \$25,000 at a rate of 31 percent.

In addition to this normal tax, corporations were subject to a surtax on 1942 incomes. Corporations with surtax net income of \$25,000 or less were subject to a tax of 10 percent. Those with surtax net income in excess of \$25,000 but not over \$50,000 were subject to rates of 10 percent on the first \$25,000 of surtax net income and 22 percent on the excess over \$25,000. Corporations with surtax net income in excess of \$50,000 were subject to a flat rate of 16 percent applicable to their entire surtax net income. Surtax net income is greater than normal tax net income by the amount of interest received from certain United States obligations issued prior to March 1, 1941.

The potential effect of the slight increase in normal tax rates and the addition of the corporation surtax was reduced by the allowance in 1942 of the adjusted excess-profits tax net income as a deduction in computing normal and surtax net income. In 1940 the normal tax was computed first and allowed as a deduction in computing the excess-profits tax. The income-tax base was further decreased in 1942 by the allowance of a 2-year carry-forward of operating losses. In 1940 only 1 year of the carry-forward was effective.

Excess-profits tax receipts in the fiscal year 1943 are estimated at \$5,670 millions, an increase of \$4,052 millions or 250.4 percent over actual receipts of \$1,618 millions from this tax in the fiscal year 1942. As excess-profits tax receipts are collected in the same manner as corporation income taxes, a comparison of the calendar years 1942 and 1940 explains in the main the increase in the fiscal year 1943 over the fiscal year 1942. In respect of the calendar year 1942 incomes, the base of the excess-profits tax computation was net income before deduction of normal tax and surtax. In computing the calendar year 1940 tax liabilities the corporation normal tax was allowed as a deduction in computing excess-profits tax net income. In 1940, corporations using the invested-capital method in computing their excess-profits credit were allowed a credit of 8 percent of invested capital. In 1942 the credit was reduced to 8 percent on the first \$5 millions of invested capital, 7 percent on the amount in excess of \$5 millions but not over \$10 millions, 6 percent on the amount in excess of \$10 millions but not in excess of \$200 millions, and 5 percent on invested capital in excess of \$200 millions. On the other hand, corporations using the average-earnings method could have a greater excess-profits credit in 1942 than in 1940. In 1940, base period net income was an average of the net income of the years 1936 to 1939, inclusive, with an allowance of one deficit year as zero. Under the Revenue Act of 1942, which first applied to calendar year 1942 incomes, the net income of the lowest year of the base period could be counted at a minimum of 75 percent of the average net income of the remaining 3 years in the base period.

The excess-profits tax rate applicable in 1942 was substantially higher than the effective rate in 1940. In 1940, excess-profits rates varied from 25 to 50 percent depending upon the absolute size of taxable adjusted excess-profits tax net income. In 1942 a flat rate of 90 percent applies except where the combined income and excess-profits tax exceeds 80 percent of surtax net income before deduction of the adjusted excess-profits tax net income, in which case the excess-profits tax is reduced by the amount necessary to reduce the combined rate to 80 percent. Corporations are allowed a post-war credit of 10 percent of the excess-profits tax in the form of non-interest-bearing bonds maturing at specified periods after the cessation of hostilities in the present war. A current credit against the excess-profits tax is allowed for debt retirement equal

to 40 percent of debt retired during the taxable year. The debt-retirement credit cannot exceed the post-war excess-profits tax credit and is deducted in computing the amount of the post-war excess-profits tax credit due the corporation.

The Revenue Act of 1942 made many other changes in corporation-income and excess-profits taxes, most of which decreased the yield of these taxes. The privilege of consolidated returns was extended to permit the filing of consolidated returns for normal and surtax purposes as well as for excess-profits tax calculation. If the corporation elects to file consolidated returns it must pay an additional tax of 2 percent of surtax net income. The method of computing depletion based on a percentage of gross income was extended to flourspar, ball and sagger clay, and rock asphalt. A credit, allowed against the corporation surtax only, equal to the amount of dividends paid on preferred stock is allowed to public utilities furnishing telephone service or selling electric energy, gas, or water. Income derived from the excess output of corporations engaged in the extraction of certain minerals was made nontaxable for excess-profits tax purposes. The amount of excess output is based on the relation of production in the taxable year as compared with production in the base period 1936-39, inclusive.

Certain changes were made which do not affect receipts immediately. A 2-year carry-back of net operating losses is allowed in computing net income. In the calculation of the excess-profits credit, a 2-year carry-back of unused excess-profits credit is permitted. Both of these are in addition to the 2-year carry forward of net operating losses and unused excess-profits credit already permitted. Provision is made to alleviate the problems of corporations whose basic inventories are depleted because of war shortages. When these inventories are replaced, the corporation may recalculate its tax using an inventory valuation based on replacement cost in the year of replacement. The full effect of these changes will never be reflected in Government receipts, since part of the effect will result in an increase in Government expenditures as refunds are made to taxpayers.

Receipts from the declared value excess-profits tax are estimated at \$85 millions in the fiscal year 1943 and represent an increase of \$33 millions or 62.8 percent over actual receipts in the fiscal year 1942. This increase is attributable to the substantially higher income levels in the calendar year 1942 as compared with the calendar year 1940.

Receipts from the capital stock tax are estimated at \$300 millions in the fiscal year 1943 as compared with actual receipts of \$282 millions in the previous fiscal year. Receipts in both years reflect a tax rate of \$1.25 per thousand dollars of declared valuation. The capital-stock valuation reflected in receipts in the fiscal year 1943 is the basis for determining excess profits for declared value excess-profits tax calculation in respect of earnings in the calendar year 1942. Receipts in the fiscal year 1942 would represent the valuation of capital stock for declared value excess-profits tax computation in the calendar year 1941. However, the difference in receipts does not reflect the relative income levels in the 2 calendar years. Receipts in the fiscal year 1942 represent a valuation which, under the law in effect at that time, would serve as the basic valuation not only for the calendar year 1942 but also for the succeeding 2 years. The Revenue Act of 1942 revised this 3-year valuation method so as to allow corporations a completely new valuation every year instead of every 3 years.

*Excise taxes.*—Excise taxes are estimated at \$3,678 millions in the fiscal year 1943, compared with actual re-

ceipts of \$3,128 millions in the fiscal year 1942. The basic index of variation in the excise-tax receipts is consumer purchases. The impact of war on the economy has caused an increase in the consumption of certain commodities and a decline in that of others. Restrictions upon production account for the latter. Increases in the tax rate are also of prime importance in the case of receipts from certain of these taxes.

Total receipts from the liquor taxes are estimated at \$1,376 millions, an increase of \$329 millions or 31.5 percent over receipts in the previous fiscal year. Receipts from taxes on distilled spirits and fermented malt liquors account for \$1,238 millions or 89.9 percent of the estimated total receipts from this group. Receipts from the excise tax on distilled spirits are estimated to increase \$228 millions or 39.7 percent, to a total of \$802 millions in the current fiscal year. The higher yield is almost entirely the result of an increase in the tax rate from \$4 to \$6 a gallon imposed by the Revenue Act of 1942, effective November 1, 1942. Receipts from the excise tax on fermented malt liquors are estimated to increase \$69 millions or 18.9 percent to a total of \$435 millions. An increase in the tax rate from \$6 to \$7 a barrel imposed by the Revenue Act of 1942, effective November 1, 1942, is largely responsible for the estimated increase in receipts. Receipts from the excise tax on wines are estimated at \$33 millions, an increase of 36.7 percent over the receipts in the previous fiscal year. This gain is expected to be caused primarily by the higher tax rates now in effect. Floor-stocks taxes, a nonrecurring item, on distilled spirits, wines, and fermented malt liquors, are estimated to yield \$69 millions.

Receipts from the tobacco taxes are expected to total \$920 millions, an increase of \$139 millions or 17.8 percent over the yield of these taxes in the previous fiscal year. Of this total, the receipts from the tax on cigarettes will contribute \$832 millions. This item will represent the largest single source of revenue from the excise taxes. An increase of 18.1 percent in estimated receipts from the cigarette tax is accounted for by an increase in the tax rate from \$3.25 to \$3.50 per thousand cigarettes, effective November 1, 1942, and by a further increase in consumption. The yield from the tax on chewing and smoking tobacco is estimated at \$51 millions, a decline of 3.1 percent. Higher tax rates on cigars and a reclassification by tax groups, together with a growth in consumption, are expected to increase receipts from the cigar tax to \$22 millions, a gain of 55.8 percent.

Receipts from stamp taxes on issues of securities, bond and stock transfers, etc., and on playing cards and silver bullion sales, are estimated at \$41 millions, a decrease of 2.2 percent. No changes in tax rates were made in this group by the Revenue Act of 1942.

The manufacturers' excise taxes, imposed on many consumers' goods which have been affected by the conversion of factories to war material production and by restrictions on civilian use of gasoline and rubber, are expected to yield \$468 millions in the fiscal year 1943. This represents a decline of \$300 millions or 39.0 percent. The tax on gasoline, with receipts estimated at \$256 millions, will continue as the most important source of revenue in this group. However, this yield represents a decline of \$113 millions, or 30.7 percent, compared with receipts in the preceding fiscal year. The decrease is expected to result from the adoption on December 1, 1942, of a program of rubber conservation which has necessitated the nationwide rationing of gasoline. Receipts from the tax on lubricating oil are estimated at \$48 millions, an increase of 2.9 percent. While the use of lubricating oil by automo-

biles is expected to be curtailed, the effect of this on revenues will be more than offset by an increase in industrial use and by an increase in the tax rate from 4.5 cents to 6 cents a gallon, effective November 1, 1942. The tax on electrical energy for household and commercial use is estimated to yield \$51 millions. The increase of 2.4 percent is expected to be caused by a further moderate expansion in consumption.

Estimated receipts from many taxes in this group show large declines from comparable receipts of the previous fiscal year. Because of automobile rationing and the cessation of production for civilian use, receipts from the tax on passenger automobiles are expected to drop from \$77 millions to \$2 millions, or 97.4 percent. The curtailment in production of tires and inner tubes for taxable uses is responsible for a decline of \$40 millions (70.8 percent) in the estimated receipts from the tax on these items. Receipts from the taxes on such articles as automobile parts and accessories, electric, gas, and oil appliances, radios, phonographs, and musical instruments, refrigerators, business and store machines, and firearms and shells, all show substantial declines because of the conversion of these industries to the production of war goods.

Certain taxes in this group were repealed by the Revenue Act of 1942. These include the excise taxes on articles made of rubber, on electric signs, on commercial washing machines, and on optical equipment. Receipts from the taxes on these items were received during only part of the fiscal year 1942, since the taxes became effective on October 1, 1941. The base for the tax on refrigerators and refrigerating equipment was changed by the Revenue Act of 1942 to cover only household refrigerators, parts, and self-contained air-conditioning units. Substantial increases are shown in the fiscal year 1943 in estimated receipts from the taxes on matches, luggage, and sporting goods because these taxes were in effect during only part of the fiscal year 1942. Declines would be indicated in each case if comparisons were made between receipts for 2 years throughout each of which the taxes were in effect.

The retailers' excise taxes on jewelry, etc., on furs, and on toilet preparations are estimated to yield \$143 millions in the fiscal year 1943, an increase of \$63 millions or 78.9 percent over the receipts in the previous fiscal year. For each of these three taxes, the relatively large increase in estimated revenues results from the fact that the tax was in effect during only part of the previous fiscal year. Increased retail sales in response to higher consumer incomes also contributed to the increase.

The miscellaneous tax group is estimated to yield \$726 millions, an increase of \$320 millions or 79.0 percent over the receipts in the fiscal year 1942. The increase is caused principally by rate increases on certain taxes made by the Revenue Act of 1942, and by the fact that other important taxes were in effect during only part of the fiscal year 1942. Receipts from the tax on telephone, telegraph, radio, and cable facilities, etc., are estimated at \$85 millions, an increase of \$36 millions over receipts in the preceding year. An advance in the tax rates, effective November 1, 1942, from a differential rate plan approximating an average of 14.6 percent to a flat rate of 20 percent on telephone messages and from 10 percent to 15 percent on telegraph messages, and some further expansion in the use of these facilities, account for the estimated increase in revenues. The tax on local telephone service is estimated to yield \$74 millions in the fiscal year 1943, an increase of \$48 millions over receipts in the previous year. A change in the tax

rate from 6 percent to 10 percent, effective November 1, 1942, an expected further increase in local telephone service, and the fact that the tax was in effect during only part of the previous year, account for the large increase in estimated revenues.

The tax rate on the transportation of persons was increased from 5 percent to 10 percent by the Revenue Act of 1942. The higher tax rate, combined with an expected further increase in civilian travel, raises the estimated receipts from this tax to \$84 millions in the fiscal year 1943. This yield compares with receipts of \$21 millions in the previous fiscal year, during which the tax was not in effect for the entire period. The Revenue Act of 1942 imposed a tax of 3 percent on the transportation of property with certain exceptions. In the case of coal, the act substituted a levy of 4 cents a short ton. Receipts from the new tax are estimated at \$77 millions in the fiscal year 1943.

Receipts from the tax on admissions are estimated at \$155 millions, an increase of \$40 millions or 34.6 percent. Not only are rising consumer incomes expected to stimulate attendance at theaters, etc., but an extension of the tax base to include admissions under 21 cents was not in effect for the entire fiscal year 1942, the period with which comparison is made.

The use tax on motor vehicles and boats is estimated to yield \$150 millions, an increase of \$78 millions over the receipts in the previous fiscal year. The tax was in effect during only 5 months of the previous fiscal year. Gasoline rationing, tire shortages, and other factors are expected to reduce the number of motor vehicles and boats subject to the tax in the fiscal year 1943 as compared with the preceding year.

Receipts from the tax on manufacture of sugar are estimated at \$48 millions, a decline of \$20 millions, or 29.8 percent, from the receipts in the previous fiscal year. The decrease follows the expected reduction in the quantity of sugar to be manufactured in the United States during the fiscal year 1943.

Estimated and actual receipts from the excise taxes are shown in the following table:

*Collections of excise taxes by source*  
(In millions of dollars)

Total, excise taxes.....	3,678.1	3,127.6	+550.5

*Employment taxes.*—Total employment taxes are estimated at \$1,472 millions, an increase of \$278 millions over actual receipts in the fiscal year 1942.

The estimated increase in receipts is attributable almost entirely to a higher level of pay rolls. The increase in the Federal Insurance Contributions Act tax rate from 1 percent to 2 percent on employer and employee (total 4 percent) which was to become effective on January 1, 1943, under the Social Security Act amendments of 1939,

was postponed until January 1, 1944, by the provisions of the Revenue Act of 1942.

Receipts under the Federal Insurance Contributions Act are estimated at \$1,105 millions. This amount exceeds the actual receipts of \$896 millions in the fiscal year 1942 by \$209 millions or 23.4 percent.

Receipts under the Federal Unemployment Tax Act are estimated at \$148 millions. As compared with actual receipts of \$120 millions in the fiscal year 1942, this represents an increase of \$28 millions or 23.3 percent.

Receipts under the Carriers Taxing Act of 1937 are estimated at \$209 millions. This is a 23.1-percent increase over actual receipts of \$170 millions in the fiscal year 1942. The increase is the result of an increase in taxable compensation, reflecting the effect of an increase in work hours and a higher wage-rate level resulting from the wage-rate increase for railway labor, effective in its entirety beginning December 1, 1941, as approved by the President's Emergency Board under the Railway Labor Act. A portion of the increase is the result of an increase in tax rate, effective in January 1943 from 3 percent to 3.25 percent on both employers and employees (total 6.5 percent).

Railroad unemployment insurance contributions are estimated at \$10 millions, an increase of \$2 millions over the actual receipts of \$8 millions in the fiscal year 1942.

*Customs.*—Customs receipts, including import taxes collected and paid in the same manner as duties imposed by the Tariff Act of 1930, are estimated at \$253 millions. This is a decrease of \$136 millions or 35.1 percent under the actual receipts of \$389 millions in the fiscal year 1942.

The decrease results from a decline in the volume of imports, consequent upon Government import restrictions to conserve available cargo space, shipping difficulties, the diversion of shipping space to war needs, and the exclusion of relatively unimportant materials so that strategic materials may be imported for war use. The free entry of strategic materials, as provided for in Executive Order No. 9177, will also contribute to a decrease in customs receipts.

*Miscellaneous receipts.*—Miscellaneous receipts in the fiscal year 1943 are estimated at \$741 millions, an increase of \$463 millions or 167.1 percent over the receipts in the fiscal year 1942. Of this increase, \$350 millions represent estimated excessive profits from renegotiation of contracts, as provided in section 403 of the Sixth Supplemental National Defense Appropriation Act (Public Law 528, 77th Cong.), as amended.

#### FISCAL YEAR 1944

Total receipts in general and special accounts in the fiscal year 1944 are estimated at \$35,407 millions, an increase of \$10,854 millions over the estimated receipts in the fiscal year 1943.

Estimated total receipts in the fiscal year 1944 as compared with those in the fiscal year 1943 are broadly summarized as follows:

#### Total receipts by source

[In millions of dollars]

General and special account receipts	Estimated, 1944	Estimated, 1943
Direct taxes on individuals.....	13,750.6	8,338.5
Direct taxes on corporations.....	14,915.0	10,070.0
Excise taxes.....	3,915.4	3,678.1
Employment taxes.....	1,982.2	1,472.3
Customs.....	204.3	252.6
Miscellaneous receipts.....	639.2	740.7
Total receipts.....	35,406.7	24,552.3

*Direct taxes on individuals.*—The direct taxes on individuals are estimated at \$13,751 millions in the fiscal year 1944, of which \$10,286 millions are derived from the individual income tax. Net Victory-tax payments plus receipts from withholdings at source are estimated at \$2,801 millions in the fiscal year 1944. It is estimated that the post-war credit allowed under the Victory tax will be taken entirely as a current credit in the fiscal year 1944.

The collection at the source in any calendar year is a prepayment on the Victory-tax liability of that calendar year which is ultimately due in March of the succeeding year. If the amount collected at the source exceeds the Victory-tax liability, the excess is applied against the income-tax liability. The gross Victory-tax liability is computed at 5 percent on the "Victory-tax net income" during the calendar year of every individual, after allowance of a fixed exemption of \$624, but is limited to the difference between 90 percent of net income for regular income-tax purposes and the regular net income-tax liability. Victory-tax net income is gross income from wages, salaries, interest, and dividends, but net income after allowable deductions in the case of rent and business, professional, and farm income. A post-war credit is provided of 40 percent of the gross Victory tax for married couples or heads of families not to exceed \$1,000, 25 percent for single persons not to exceed \$500, and 2 percent for each dependent not to exceed \$100 each. The credits may be taken currently to the extent specified payment of premiums on life insurance, net repayment of debts, and net purchases of United States obligations are made.

Estate-tax receipts are estimated at \$609 millions in the fiscal year 1944, an increase of \$109 millions or 21.9 percent over estimated receipts in the fiscal year 1943. The increase is accounted for principally by the fact that for the first time the 1941 act rates will apply to practically all returns filed. The changes made by the 1942 act apply to only part of the returns filed in the fiscal year 1944 but will result in some increase of revenue. Thus, it is estimated that the change which substitutes one \$60,000 specific exemption for the former specific exemption and insurance exclusion of \$40,000 each, resulting in some loss of revenue, will be more than offset by a gain from certain changes in the powers of appointment and in the treatment of community property as jointly owned property.

Gift-tax receipts in the fiscal year 1944 are estimated to be \$55 millions. This represents an increase of \$13 millions or 31.6 percent over the estimated receipts in the fiscal year 1943. The increase is caused by the reduction of the annual exclusion from \$4,000 to \$3,000 for each donee and of the specific exemption from \$40,000 to \$30,000, made by the 1942 act, as well as by an increase in the estimated total value of gifts.

*Direct taxes on corporations.*—Direct taxes on corporations are estimated at \$14,915 millions in the fiscal year 1944, an increase of \$4,845 millions over the estimated receipts in the fiscal year 1943. Practically all of this increase is reflected in the increase of \$4,600 millions in collections of the excess-profits tax.

Corporation income-tax receipts, excluding back taxes, in the fiscal year 1944 are estimated at \$3,870 millions, an increase of \$120 millions or 3.2 percent over estimated receipts in the previous fiscal year. In the comparison of receipts in the fiscal years 1942 and 1943, the difference was ascribed to the relative income levels of the calendar years 1942 and 1940 as collections of the liability year 1941 are distributed evenly between the 2 fiscal years. In a comparison of receipts in the fiscal years 1943 and 1944, the explanation of results may be limited to a comparison of the

tax liabilities in respect of the incomes for the calendar years 1943 and 1941. This applies not only to the corporation-income tax but to the excess-profits and declared value excess-profits taxes as well.

In both the calendar years 1941 and 1943 corporations were subject to a normal tax and a surtax. In both years the normal tax rates were substantially the same. For corporations with normal tax net income of \$25,000 or less the rates were 15 percent on the first \$5,000, 17 percent on the amount in excess of \$5,000 but not over \$20,000, and 19 percent on the excess over \$20,000. In 1941 corporations with normal tax net incomes in excess of \$25,000 were subject to a flat rate of 24 percent on the entire normal tax net income. An alternative method of computing the tax was allowed which permitted corporations to compute the tax on the first \$25,000 of normal tax net income at the bracket rates applicable to corporations with normal tax net income of less than \$25,000. Under this alternative method normal tax net income in excess of \$25,000 was subject to a rate of 37 percent. Corporations with normal tax net income of less than \$38,461.54 could use the alternative method with advantage. Under the 1942 Revenue Act in effect in the calendar year 1943, the rate on net income in excess of \$25,000 was reduced to 31 percent. This raised to net income of \$50,000 the point at which the alternative method of computing the tax resulted in a tax saving to the corporation. This was the only change in normal tax rates.

In 1941 the corporation surtax rate was 6 percent on corporation surtax net income not in excess of \$25,000 and 7 percent on surtax net income in excess of \$25,000. These bracket rates of tax applied to the surtax net income of all corporations. In 1943 corporations with surtax net income of less than \$25,000 are taxed at 10 percent. Corporations with surtax net income in excess of \$25,000 but not over \$50,000 are taxed at 10 percent on the first \$25,000 of surtax net income and at 22 percent on the excess over \$25,000. Corporations with surtax net income over \$50,000 are subject to a flat rate of 16 percent applicable to their entire surtax net income.

Despite the effect of higher surtax rates and substantially increased income levels in the calendar year 1943, as compared with those in the calendar year 1941, estimated regular corporation income tax receipts in the fiscal year 1944 are not much higher than estimated receipts in the fiscal year 1943. This situation results from the decrease in the tax base caused by the allowance of the deduction of adjusted excess-profits tax net income in computing income tax net income for the calendar year 1943, as compared with the allowance of the excess-profits tax as a deduction in computing liabilities on incomes in the calendar year 1941, when the maximum excess-profits tax rate was 60 percent. Under existing law, and with rising corporate incomes, the base of the income tax will remain relatively stable as a considerable portion of increased profits is subject to excess-profits tax.

Corporation excess-profits tax receipts in the fiscal year 1944 are estimated at \$10,270 millions, an increase of 81.1 percent over estimated receipts of \$5,670 millions in the fiscal year 1943. The increase results from the substantially higher income levels and increased tax rates in the calendar year 1943 as compared with those in the calendar year 1941. In the calendar year 1941 corporations were subject to excess-profits tax rates varying from 35 to 60 percent, depending on the absolute amount of excess profits, the highest rate applicable to adjusted excess-profits net income in excess of \$500,000. With respect to their calendar year 1943 incomes, corporations are subject to a flat rate of 90 percent on adjusted excess-

profits net income. This is reduced where the combined income and excess-profits taxes exceed 80 percent of surtax net income computed without the deduction of adjusted excess-profits tax net income, so that the combined income and excess-profits taxes will equal 80 percent. Corporations are allowed a credit of 10 percent of the excess-profits tax as a post-war credit. A current credit is allowed equal to 40 percent of debt retired but not to exceed the post-war credit. In each year corporations may determine their excess-profits tax liability by computing their excess-profits credit under either the average earnings method or the invested capital method. Corporations using the average earnings method receive more favorable treatment in 1943 than they did in 1941 since in 1943 the lowest year of the base period is counted at a minimum of 75 percent of the other 3 years in computing base period net income. This 75 percent minimum was not allowed in the calendar year 1941. However, some corporations using the invested capital method will have a smaller excess-profits credit in 1943. In 1941 corporations were allowed a credit equal to 8 percent on the first \$5 millions of invested capital and 7 percent on the excess. The 1942 Revenue Act reduced this credit to 8 percent on the first \$5 millions of invested capital, 7 percent on the next \$5 millions, 6 percent on the next \$190 millions, and 5 percent on the excess over \$200 millions.

Other legislative changes made by the Revenue Act of 1942 affecting the corporation income and excess-profits taxes were indicated in the explanation of comparative receipts in the fiscal years 1942 and 1943.

Declared value excess-profits tax receipts in the fiscal year 1944 are estimated at \$90 millions, an increase of \$5 millions or 5.9 percent over estimated receipts in the fiscal year 1943. Estimated calendar year 1943 income levels are substantially higher than those of the calendar year 1941 but the effect of relative income levels is offset to some extent by the substantial change in economic conditions during 1941, making it difficult for corporations to provide against declared value excess-profits tax liabilities by accurate capital stock valuations. It is believed that this condition will not exist in the calendar year 1943 to the same extent as in the calendar year 1941.

Capital-stock tax receipts in the fiscal year 1944 are estimated at \$360 millions, an increase of \$60 millions or 20.0 percent over estimated receipts in the preceding fiscal year. This increase results from the estimated increase in income levels in the calendar year 1943 as compared with the calendar year 1942.

*Excise taxes.*—In the fiscal year 1944, excise taxes are estimated at \$3,915 millions, increasing only slightly over the estimate of \$3,678 millions in the fiscal year 1943. The estimated yield from manufacturers' excise taxes dropped \$73 millions below the fiscal year 1943 figure. This decline is due almost entirely to the restrictions upon the manufacture of consumers' durable goods.

Receipts from the liquor taxes are estimated at \$1,487 millions in the fiscal year 1944, an increase of \$110 millions or 8.0 percent over the estimated receipts in the previous fiscal year. Of the estimated total receipts, 62.7 percent is accounted for by the tax on distilled spirits, which in this year supplants the cigarette tax as the largest single source of excise-tax revenue, and 31.3 percent is accounted for by the tax on fermented malt liquors. The increase in receipts for this group reflects a full year's collections at the higher tax rates on distilled spirits, wines, and fermented malt liquors provided in the Revenue Act of 1942, as compared with a partial year's collections at these rates in the previous fiscal year. Actual withdrawals of distilled spirits are expected to decline in the fiscal year 1944 be-

cause of a reduced quantity of these products available for consumption under the program for diversion of alcohol to war uses. Withdrawals of wine are expected to be reduced somewhat because of reduced production, and withdrawals of fermented malt liquors are expected to remain unchanged.

Total tobacco-tax receipts are estimated at \$948 millions in the fiscal year 1944, representing an increase of \$28 millions, or 3.1 percent over estimated receipts in the fiscal year 1943. Of this group, the largest single source of revenue is from the tax on cigarettes. This tax is estimated to yield \$30 millions or 3.6 percent more than in the previous fiscal year. This increase is ascribed principally to increased consumer income making possible the purchase of more cigarettes and to some shift from the use of manufactured tobacco to the smoking of cigarettes. The tax showing the largest percentage increase in receipts is that on large cigars estimated to yield \$28 millions in the fiscal year 1944, an increase of \$6 millions, or 27.1 percent. The greatest part of this estimated increase in yield results from the fact that the higher tax rates imposed by the Revenue Act of 1942 are reflected in only 8 months of the fiscal year 1943 receipts.

Total stamp-tax receipts in the fiscal year 1944 are estimated to yield \$42 millions, an increase of \$1 million or 2.8 percent over the fiscal year 1943.

The manufacturers' excise taxes are estimated to yield \$396 millions, a decrease of \$73 millions or 15.5 percent. This decline is caused by production curtailments, shortages of materials and rationing of automobiles, etc. The largest single source of revenue in this group is from the tax on gasoline, which is estimated to yield \$219 millions, a decrease of \$37 millions or 14.4 percent from the previous year. The estimates assume that the Nation-wide rationing of motor fuel will extend throughout the fiscal year 1944, whereas rationing on a comparable scale will extend through only 6 months in the fiscal year 1943.

The only manufacturers' excise taxes showing increased yields over the fiscal year 1943 are those on lubricating oil and on tires and tubes. Receipts from the tax on lubricating oil are expected to reach \$58 millions, an increase of \$10 millions or 21.3 percent over the previous year. This is caused by increased consumption for industrial uses, although a further decline in its use for automotive purposes is anticipated. The tax on tires and tubes is estimated to yield \$23 millions, an increase of \$7 millions or 41.0 percent. This gain is largely attributable to some rise in tire production under the reclaimed rubber program, and to the necessity for maintaining truck tires for essential uses.

Receipts from other taxes in the manufacturers' excise group are expected to decrease in amounts varying from 1.0 percent for electrical energy to 85.0 percent for passenger automobiles. The tax on electrical energy is estimated to yield \$51 millions, a decrease of \$0.5 million from estimated receipts in the previous fiscal year. Receipts from the tax on parts and accessories for automobiles are estimated at \$12 millions, a decrease of \$6 millions or 32.2 percent, likewise the result of an expected curtailment of production for civilian use. The tax on photographic apparatus is expected to yield \$4 millions, a decrease of \$4 millions or 45.0 percent from the previous fiscal year. The amount of decrease in taxable sales as compared with those of the previous fiscal year is actually greater, inasmuch as receipts in the fiscal year 1943 reflect only 7 months' taxation at the increased rate.

The retailers' excise taxes are estimated to yield \$137 millions, a decrease of \$6 millions or 4.5 percent. This

decline is caused chiefly by shortages of metals, etc., for jewelry, and of alcohol, glycerin, etc., for toilet preparations.

The miscellaneous tax group is estimated to yield \$903 millions, an increase of \$177 millions or 24.5 percent over the receipts in the fiscal year 1943. This increase comes principally from the taxes on telephone, telegraph, etc., local telephone service, and transportation of property. The taxes on communication are expected to yield \$204 millions, an increase of \$45 millions or 28.4 percent. This results from some further increase in the use of telephone facilities, and to the fact that the increased rates will be in effect for the entire year, whereas they were reflected in only 7 months of receipts in the fiscal year 1943. The tax most responsible for the increase in this group is that on the transportation of property. The higher receipts are caused by an expected further increase in business activity, and to the fact that the fiscal year 1943 estimate of receipts reflects less than a half year's receipts, whereas those of the fiscal year 1944 reflect a full year's receipts.

The receipts from the tax on admissions are estimated at \$161 millions, an increase of \$6 millions or 3.7 percent. The use tax on motor vehicles and boats is estimated to yield \$125 millions, a decrease of \$25 millions or 16.6 percent from the previous year. This decline is the result of a smaller number of vehicles and boats expected to be in use because of the rationing of tires and gasoline.

*Employment taxes.*—Total employment taxes are estimated at \$1,982 millions, an increase of \$510 millions over the estimated receipts in the fiscal year 1943. The increase results partly from a higher level of taxable compensation and partly from increased tax rates affecting contributions under the Federal Insurance Contributions Act and the Carriers Taxing Act of 1937.

Receipts under the Federal Insurance Contributions Act are estimated at \$1,556 millions. This is an increase of \$451 millions or 40.8 percent over estimated receipts in the preceding fiscal year. The change in rate, effective January 1, 1944, raises the tax on both employees and employers from 1 percent to 2 percent (total 4 percent). The increase in contributions will affect the receipts of only the last 3 months of the fiscal year 1944 (since there is a lag of one calendar quarter between the period of liability and the period of receipts) but will amount to 71 percent of the estimated increase in receipts under this act.

Receipts under the Federal Unemployment Tax Act are estimated at \$171 millions, an increase of \$23 millions or 15.3 percent over the estimated receipts in the fiscal year 1943. The increase is the reflection of a higher payroll level.

Receipts under the Carriers Taxing Act of 1937 are estimated at \$245 millions, an increase over the estimated receipts in the fiscal year 1943 of \$35 millions or 16.9 percent. The increase is the result of higher railroad pay rolls and an increase in the tax rate. The higher rate (3.25 percent on both employees and employers as compared with the previous rate of 3 percent on each) will affect contributions throughout the fiscal year 1944.

Railroad unemployment insurance contributions are estimated to be \$11 millions, an increase of \$1 million over the estimate for the fiscal year 1943. These receipts represent 10 percent of the 3-percent tax on covered pay rolls, the other 90 percent being deposited to the credit of the railroad unemployment insurance account in the unemployment trust fund.

*Customs.*—Customs receipts in the fiscal year 1944 are expected to decline to \$204 millions from estimated receipts of \$253 millions in the fiscal year 1943. Wartime activity is expected to increase the need for concentrating all available shipping space into the movement of strategic materials and supplies. Receipts from duties on stocks which will be withdrawn from storage are expected partially to offset the estimated decline in receipts from duties on many current imports.

*Miscellaneous receipts.*—Miscellaneous receipts in the fiscal year 1944 are estimated at \$639 millions. This is a decrease of \$102 millions as compared with 1943, a decline of 13.7 percent. Of the \$639 millions, it is estimated that only \$250 millions will be received in the fiscal year 1944 from renegotiated contracts, whereas \$350 millions was estimated from this source in the fiscal year 1943.

## APPENDIX 6

*Statement of balances of appropriations as of June 30, 1942 (exclusive of trust accounts), and of appropriations for the fiscal year 1943 (including permanent and indefinite appropriations), as of Nov. 1, 1942, reported by the Secretary of the Treasury*

[This statement is included in the Budget only because of the requirements of the Budget and Accounting Act, 1921 (31 U. S. C. 11e). As budgetary information, the statement has little, if any, value, as it simply shows the balances of appropriations on the books of the Treasury, June 30, 1942, classified as between 1943 appropriations and those of prior years according to whether the funds were appropriated as "immediately available"]
